Thread: [\[Official Group\] Genesis - Recruitment - Cryptocurrency Enthusiasts CLICK HERE](#)

SIM-3323508 - December 17, 2018, 8:44 pm

About

If it has to do with cryptocurrency then it fits the description of Genesis. As a group of cryptocurrency enthusiasts we will educate one another from all aspects of cryptocurrencies; blockchain technology, mining, trading, resources, and anything else crypto related. Our subforum is full of content and we believe the best way to learn is from one another.

What you can expect
Tutorials on Technical Analysis

Write ups on cryptocurrencies

Trading Signals

& More

Userbar

Requirements

No open/unresolved scam reports or community alerts

Be active within the group

How to Apply

Answer the following questions.

What can you bring to the group if accepted?

If accepted what would you like to learn from the group?

How long have you been investing in cryptocurrencies?

Want to skip the application process?

You can buy into Genesis for a one time fee of \$25 payable in BTC or ETH.

N1ghtm4re - December 17, 2018, 8:55 pm

Will you let me in if I give you a Snickers?

Spade - December 17, 2018, 11:36 pm

why must I be outta town when a crypto group comes

hash - December 18, 2018, 1:03 am

I'm really into Hyperledger Fabric and the B2B solutions for this technology. Doing a lot for the company I work for, we are using the Oracle Blockchain.

I occasionally trade crypto, used to do it a lot but due to my full-time job I do not have time to make substantiated analysis anymore.

If I got accepted I would spread knowledge about blockchain and it's purpose outside crypto. A lot of people do not understand basic concepts and never heard from Hyperledger.

Option 1: Buy in for \$20, must be paid with a top 100 cryptocurrency.

Option 2: Upload a video of your mining farm operating. Must have date of posting and HF Username + UID on a piece of paper in the video.

Option 3: Show me your technical analysis skills by linking your tradingview account and performing a technical analysis of an assigned crypto.

Can I buy in for \$20 please?

I hold crypto assets on Ethereum and Bitcoin. I happened to buy in when bitcoin was still \$15,000 and Eth \$1200 and I'm suffering!

iNuke - December 18, 2018, 3:24 am

I'd be interested. How many members are currently in?

SIM-3323508 - December 18, 2018, 8:12 am

I know people who bought higher than that, its okay.
If you're actually interested shoot me a PM.

(Dec 18, 2018 04:24 AM)iNuke Wrote: [\[CITE\]](#) I'd be interested. How many members are currently in?

Only 15 as of yet

mvmt - December 18, 2018, 8:17 am

You already know who I am, let me know if I can join or if I need to show you my super technical elliot wave ichimoku cloud analysis.

no\$fer7u - December 18, 2018, 8:21 am

My bitcoin mining from is the currency exchange section lol, I trade & sell to earn little bit of cash does that work? haha

Feel free to start a contract!

Lavish Living - December 18, 2018, 6:19 pm

You already know who I am, let me know if I can join

BrunGmes - December 20, 2018, 4:45 am

Really interested in joining in!

I don't have a mining farm, but I have a small rig. Started mining when ETC came out, made a couple hundred when it hit +30€. I can send you some photos or video via PM if you like.
Besides I'm a crypto investor too, holding a couple different coins.

Allelujah - December 20, 2018, 6:00 pm

RIP to skill... :(

Let me and Clique in at least ? :)

Juice. - December 20, 2018, 8:16 pm

I have messaged you some technical analysis of a coin I have recently done as well as some of my past successful ones.

Roytoy - December 21, 2018, 5:18 am

Let me join if you want more activity within the group!

SIM-3323508 - December 21, 2018, 3:41 pm

Now accepting Bytes for buy ins :)

Kill Joy - December 23, 2018, 11:02 am

Do you have any ideas for the group doing projects or tutorials together etc?

SIM-3323508 - December 23, 2018, 11:13 am

(Dec 23, 2018 12:02 PM)Kill Joy Wrote: [\[CITE\]](#) Do you have any ideas for the group doing projects or tutorials together etc?

Before we worry about projects / tuts / giveaways for the community I am trying to build a decently sized user base that has experience or the will to learn within the group. In our private subforum I have been posting educational content on FA, TA, and General Terminology but those guides are kind of exclusive to the group at this time.

Kill Joy - December 24, 2018, 1:34 pm

If you ever need help on the technological aspects, feel free to ask for help and I get whip some things up or get you the right sources for information. Not necessarily interested in TA.

Best of luck with your group. I remember when the first Genesis tried taking off.

Nike+ - December 24, 2018, 2:10 pm

I would like to purchase the \$20 buyin with btc.

SIM-3323508 - December 24, 2018, 2:29 pm

1) You're incompetent and can't follow the recruitment.
2) I dont care what you did during a bull market or that you're taking \$50 from kids on some bullshit mentoring.

Appreciate it ?

SIM-3323508 - January 11, 2019, 6:07 pm

TA Guide #3 will be released next week!

SIM-3323508 - May 1, 2019, 3:47 pm

I am still looking for crypto enthusiasts to join!

SIM-3323508 - May 22, 2019, 1:55 pm

I have updated our application process.

BlackShadow - May 22, 2019, 4:28 pm

What can you bring to the group if accepted? - Knowledge and positive attitude

If accepted what would you like to learn from the group?

-Anything helpful

How long have you been investing in cryptocurrencies?

-5 years already

tripleseven - October 1, 2019, 11:30 pm

Hey!

My application form:

What can you bring to the group if accepted? I can share what i know about crypto and my technical analysis.

If accepted what would you like to learn from the group? Since learning never stops, there are so many more things i want to learn, improve my technical analysis, obtain more experience, be better at spotting the trends, etc.

How long have you been investing in cryptocurrencies? I have been investing in crypto since the end of 2017, before that i did kept track of the market and the improvements of crypto in general but i was not making and investing enough money for it to be called investing.

Cheers

??????? - October 30, 2019, 8:05 am

Apply

What can you bring to the group if accepted?

Im active in some crypto signal groups. Im interested in sharing thoughts, signals, and just the

interest in the common market

If accepted what would you like to learn from the group?

Learn if people have insight in the new crypto's coming out. Lear to watch the stats, story and thrustwortht of the new crypto's.

How long have you been investing in cryptocurrencies?

Uhm, i have bought a pizza once with 17 bitcoins. Thats how long ago i started with BTC. Can you imagine how rich i would be at this moment if i kept them?

MSQL - November 3, 2019, 6:30 pm

MSQL's Application

What can you bring to the group if accepted?: I'm always open and willing to learn and talk about topics of interest without getting offended. I'm always willing to help someone out if he needs any assistance. I can be serious when you need me to be, other than that i'm just hanging out and grinding.

If accepted what would you like to learn from the group?: I'm open to learn anything, knowledge is always welcome and I'm open to focus on new things and spread the knowledge.

How long have you been investing in cryptocurrencies?: I've been investing into crypto since 2014, I have had a whole portfolio full with different ico's and such. I'm always looking for new coins and overall profit.

Thank you and I hope to be part of this group very soon.

QTipx - November 6, 2019, 9:34 am

I sent you a PM regarding this.

Looking forward to hear from you :)

Unexplained - November 22, 2019, 4:54 am

Just let me in. It's the smart thing to do.

That is all. Thanks ;)

tank - November 24, 2019, 12:09 pm

What can you bring to the group if accepted? If I am accepted in the group I can bring a lot of knowledge about a lot of the different Cryptos. I have been investing in them for quite some time.

If accepted what would you like to learn from the group? If I am accepted into the group I would just like to learn everyone else's investment strategies. Take a look at I am doing wrong and see how I can improve. I would like to do the same for other people.

How long have you been investing in cryptocurrencies? I have been investing in Cryptos for around 3 and a half years now.

Soaaponarope - December 1, 2019, 1:22 pm

What can you bring to the group if accepted?

I have a diploma in Financial trading and investment, I have a acceptable understanding of stocks and the market,

I would be able to assist other members who may need a second opinion on stock trading not only crypto markets but all over the board. I'm not guaranteeing I can make everyone money but I have a basic understanding am willing to share my information with others and help in any areas I can.

If accepted what would you like to learn from the group?

I would like to learn a better understanding of crypto as a whole, I really want to have a better understanding of mining bitcoin and other crypto currency as a whole, I love learning new information and am really taking a turn to crypto currency's most recently.

to answer the question in short, I'd love to learn everything that the group has to offer.

How long have you been investing in cryptocurrencies?

I've bought bitcoin since 2012 on and off, But more recently really interested in investing towards other crypto and try to have a better understanding of it for the next crypto to boom in the market.

Cap Talk - December 1, 2019, 1:24 pm

What can you bring to the group if accepted? Many things. If anything, a presence filled with high spirits and advice for anyone that asks. I don't mind sharing any of the knowledge I have with anyone in the group. Its the least I can do.

If accepted what would you like to learn from the group? More about trading. I've been trading bitcoin for 6 years but there is always much more to learn.

How long have you been investing in cryptocurrencies? Since about early 2014. When I first learned about bitcoin I was almost memorized by it. I didnt understand it but I knew I wanted to. I've had a love for crypto ever since.

Rally the Bulls - December 8, 2019, 3:16 pm

What can you bring to the group if accepted? I'm a relatively new investor, but my eagerness is unmatched. Since starting, I've been soaking in information non-stop. I can provide resources for users to learn more about general investment strategies, and crypto itself. I'm fairly good at articulating myself, and am not shy when it comes to debating signals in a healthy manner with other like minded individuals.

If accepted what would you like to learn from the group? I'm looking to learn anything that can be offered, but I suppose my focus would be more on technical analysis for crypto since my background is mostly stocks.

How long have you been investing in cryptocurrencies? On and off for 3 to 4 years, but I never participated in the technical analysis side of things until this year. It was all speculative when I began.

If I don't fit, that's okay too. :)

MoneyPowerSuccess - December 9, 2019, 8:52 am

Answer the following questions.

What can you bring to the group if accepted?

If accepted what would you like to learn from the group?

How long have you been investing in cryptocurrencies?

1. I do have a very particular set of skills. Skills I have acquired over a very long career. Skills that make me a nightmare for people like you. If you let my daughter go now that'll be the end of it. I will not look for you, I will not pursue you, but if you don't, I will look for you, I will find you and I will kill you.

2. Whatever will add more Money to my pockets, more power to my mind and success to my life.

3. I had over 200k in bitcoin that my stupid ass got rid of years ago because I did not take it seriously. Currently investing in Ripple, Stellar, Cardano and a little in Tron.

Nas - December 9, 2019, 9:07 am

Great group and MMLF is one of the most knowledgeable people when it comes to crypto currency.

Vyrkfrir - December 11, 2019, 9:05 am

What can you bring to the group if accepted?

Not a whole lot other than attention to details and commitment to team effort if we all invest in something new. I've always been big into crypto and have experience since 2011 at the latest.

If accepted what would you like to learn from the group?

I would like to learn new innovations in block chain technology, as well as crypto tricks/guides posted by other members detailing investment opportunities we can all profit from as a group.

How long have you been investing in cryptocurrencies?

I first got involved in cryptocurrencies when I ran a RuneScape BlackMarket for years back between 2010-2015 and made plenty of investments, profits, mistakes, and plenty of lessons. At one stage, I sold bought a RuneScape account for 20 BTC back when they were worth 13USD each - and to this day I still beat myself up to no end for this decision.

I seem to have already applied to this before without realizing.

I've deleted that first post, I'll leave this one up instead.
