I wouldn't be surprised if my account gets blocked soon, I wouldn't mind either to be honest. True they are really a shit company , we really need a better alternative

Crypto is def the way to go. Sorry to hear he charged back, what's up with these scammers trying to scam for low amounts. Doesn't make any sense.

His account was made in 2012...

But yes from now on I will only exchange with very trusted members using PP.

Oh that sucks man.

PayPal is in general just a bunch of idiots. And the support is really not helpful, and it take them a hundred f*****g years to fix something or help you out.

Hope you get it solved, even tho the chances aren't big

I've been waiting for you to confirm on Skype that the address I'm about to send it to is still the correct address. I'm sorry you got all caught up in this, confirm that or resend your btc address and I'll send it. It may not be until tomorrow after I get off of work but I got ya. I'll be on for another hour or 2.

And you can wish all the bad things you want to happen to me, but to wish that on children, or a child; is just fucked. Anyways, let me get them digits.

Put yourself in a position where this is not your first time losing money because of some dumb chargeback shit. Add onto that the guy not responding over measly 50\$. Ofc you get heated and hope his whole family dies, that's the same way id react.

You know what legit people do when their PayPal charges back like that? Rush to the bank and pay back the people they owe. I woke up 2 years ago to a 600\$ random chargeback on my PayPal, instantly went to the bank and paid back everyone i owed, i even covered the 15% fee out of my pocket.

O.T Legit report hopefully he makes right on this shit.

Spoiler ([Click to View](#))

This guy is an impostor and tried scamming me out of \$90. Fuck him and fuck anyone involved with him. Fuck his parents for giving birth and raising this failure of a human. If he has kids then yea fuck them too, get rid of that assholes offspring who will probably grow up to be equally as shitty as him. Cut off the family tree, starting with his head. EZ.

OP, looks like he's trying to pay you back and hopefully he follows through with it.

He obviously has no kids if he risks jail time and ass stretching over a miserable \$50, also he bragged about going to cash out some \$120 -_-"

He's probably 15-17, if he has kids then I'm sorry for them.

Utter mongoloid, who's supporting the scammer? Nobody you dolt fuck, please post where i'm supporting the scammer? Quote it word for word please you angry little teenager.

All I said was asking aids for some persons child is pretty pathetic, I get your mongo self is okay with that kind of behavior, but I thought The OP was a fairly competent professional guy until I read those logs.

I don't care, he can send me anything he wants & waste all his time on me.

Already called PayPal and told them that he's threatening me in this way, I hope they will do some actual research to scammers & people who use hacked PP's or credit card refundings.

I'm a fairly competent and professional guy and I gave him some time before opening the scam

report, he was nice at first and told me that he would 100% refund it, which was all bullshit and was making me fairly mad. I've had a lot of problems money wise lately which is annoying me very much.

But sure, protect the scammer. Obviously he has only cut out the parts that look good towards him and not the parts where he threatened/trolled me.

You should send them an email as well so at least there's a text record of it as well that you can fall back on.

Then why lower yourself to his standards? Again, who's protecting the scammer? He's a scammer, he's gonna do what he's gonna do, i hate them as much as the next person, they are a tumor to this place and society in general. But you have the restraint to be a better person and not resort to petty childish insults then onto wishing some random kid aidz, (fictional or not). I pegged you better than that by your presence here.

You are right in some way but I don't fully agree, wait till your in my position and have all kinds of bullshit happen within a few days.

Then we'll see how you would react, OK?

Now, go spend your time wisely and stop arguing with me about non important stuff.

If that keeps people from scamming me then I am very happy with that ;)
