Thread: [is Crackrevenue and OGADs legit?](#)

4ground_daemon - December 18, 2018, 1:32 pm

I was looking to start in CPA and was looking at different CPA networks. I was wondering is crackrevenue and OGAD's legit? was looking to use these networks. not exactly sure how i'm going to get the traffic yet but that's part of the testing :)

Thanks bromies

Yes, both CrakRevenue and OGAds are legit CPA networks and they are both highly popular in CPA.

Also a suggestion from my side; if you are going to get mobile traffic, I would highly recommend you OGAds.

If you will be doing incentive CPA, you should join OGAds since CrakRevenue does not allow this type of traffic.

Ogads is best for mobile traffic...

I did Ogads + Instagram in the past... Made some bucks out of it

I can confirm CrakRevenue is legit and trusted network, I have been working with them for more than 2 years. Payments always on time.

OGAds is 100% legit. Huge vouch for it.

But I don't find the offers especially good to be honest.

Thanks for all the feedback guys! Was just wondering crackRevenue has like \$100 min payout and Ogads has \$50 so I was being cautious.

Thanks Sam

Both are legit but are different in what they specialize in.

Crackrevenue is for adult traffic only while OGAds doesn't allow that type of traffic. So you have

decide what kind of niche you will be working in.

Apologies, I worded that incorrectly. I meant to say "specializes in" adult traffic. I worked with them a few years back and their backbone was adult. I see now they diversified a lot.

So, go for it ?
