Is it that you dont care, or that the host doesnt care becvaue there is a difference. I can put something on your server for \$3, and get the whole Datacenter kicked in LOL.

Where are the servers from, are you reselling? Do you own the hardware? Whats the ISP policy on all these things?

I am reselling servers from a Luxembourg company. I don't own the hardware. ISP ignores requests. All the info on the servers is the info I specified, so I get all the notices.

I dont think you quite understand how the Hosting infustructure works.
"reselling servers from a Luxembourg company"

This just makes it more obvious that not everything is allowed.

Luxembourg ISP do not ignore all requests. Check the laws mate you down syndromed cunt. DMCA is ignored by CERTAIN hosts, doesnt make it bulletproof. Wait till a notice gets to your provider.

Oki do me a favour sell me a package for \$5 and we will see how long it lasts.

Maths is hard for you young ones.

Domain = \$30
WHMCS = \$20
Reseller = \$50

You sell for \$3, 20 Clients = \$60

WhoTheFisThatGuy - December 28, 2018, 6:42 pm

Funny thing is he posted looking for a web developer like 10 days ago. There is absolutely no way this kid knows anything he should related to running a web hosting service. He probably has absolutely no knowledge of HTTP requests, how they work & how to handle them effectively in the event of an attack, he probably has no idea how to configure RAID, probably has absolutely zero knowledge with bash & terminals, and clearly has no web development experience.

He's also clearly very poor judging by the threads he posts, what happens when his money runs out & he can't pay for his server one day or something? All his customers websites are just gone & it'll be the typical another dead HF hosting company

Speak English please. Why do you not buy the hosting and properly lookup the IP it gives. You must be braindead if you think it is OVH.

I want to rent this server for port scanning and vulnerability scanning. Is server blasting possible?

Asoc?al - January 9, 2019, 7:05 am

if you are still selling this project of yours. you do not have my permission to sell my GFX that you never paid for. Let's resolve this within 24 hours or I will open a community alert.
