Thread: [Why I cannot edit my marketplace thread any longer?](#)

I cannot edit it any longer it has a restriction why I wasn't account for. And besides that point it is bugged or at least always shows the same time when I try to edit the title outside the thread in the market section is there any way of update it again, have I infringed any rule? I have little to no information. the only thing I got a warning was, I can only edit my posts 30 times per month or something around that. this is quite different.

Yeah they changed how many times you can edit per rank, kind of sucks but oh well, you got to make your edits count now! :P

[Edit Time Limit](#)

Your thread is too old to edit. Purchase a sales tag or a paid sticky for the thread to remove the limitation.

thank you very much, I'll be purchasing a sales tag.

Sadly I had to start a new exchange thread as well after having the same issue. It's from people abusing the ability to edit threads.

I wonder if Vendor user group members have this limit removed?

We dont have this limit. I would suggest OP to buy the sales tag for just \$20 for the month if they want to the edit limit to be extended.

That's weird because I am still being limited to 10 edits even in the vendor and/or r00t group. When I try to edit past 10 times, I am given the error "You cannot edit posts more than -4 times. Read our [Help Docs](#) about increasing edit limits."

Purchase a sales tag or a paid sticky for the thread to remove the limitation. Also, I even tried purchasing a paid sticky and I am still being given the same error. Any ideas boss?

I am trying to edit my sales thread in the premium market place. I'm not sure if I can link it outside of the marketplace without 'advertising', but it is titled ".ELYSIUMS. BTC AUTO GAINER V2".

Found the bug. The sales tag does 4 times your edits. We use -1 for unlimited (vendor) so your limit was -1x4 which is why it said "-4 times".

We are fixing now. Thanks for reporting.
