Thread: [#Skyline is working with a scammer + misleading sales\(UID = 2667861\)](#)

Michelangelo TMNT - December 21, 2018, 5:23 pm

Me asking #Skyline for a vouch on this member -

<https://hackforums.net/member.php?action=profile&uid=3902931>

Spoiler [\(Click to View\)](#)

Me purchasing #Skyline partners said programming services.

Spoiler [\(Click to View\)](#)

<https://hackforums.net/contracts.php?action=view&cid=11235>

#Skyline saying he will inform his partner about deal dispute open against him;

Spoiler [\(Click to View\)](#)

#Skyline saying he will contact him to resolve this/will help me resolve this. (have pm's of him stating he has his real name/facebook profile)

Spoiler [\(Click to View\)](#)

Me calling out Skyline on working with the scammer/backing up the scammer (5pm's later finally get a reply from him lol)

Spoiler [\(Click to View\)](#)

#Skyline's reply; notice how nice he was on trying to "help me resolve this' yeah, he won't release any names or info or inform HF his partner is a scammer hmmm.

Spoiler [\(Click to View\)](#)

Oh, and here is Skyline's and his partner program which claim to do all the such (CRACKATTACK - MULTI CRACKER - PROXY SCRAPER - IG/RS/REDDIT/MEGA/NETFLIX + MANY MORE!) - funny after people start commenting, just close the thread lol.

Spoiler [\(Click to View\)](#)

Image if deleted/edited ;

View thread here ; <https://hackforums.net/showthread.php?tid=5883734>

And here is user's stating this product is falsely advertised.

#Skyline is selling this scammer's shit products and not informing HF of a scammer who he vouched/ who he sells his products for, nor will he give me the updates promised for CrackAttack nor the developer of crack attack who scammed me to give me my money back/updates for crack attack.

If you are proxy selling a scammers products, and won't release the info on the said scammer nor refund the customer's that paid for a WORKING as title states. You should be classified as well, a scammer.

BEWARE OF #SKYLINE. If no info/contact info is added for his partner from #Skyline, or update to his customers of his products and the 'expected updates' as promised in his threads 'multiple times' I would assume it's safe to safe #Skyline is a scammer.

This is an invalid scam report. I'm sorry for your loss but without a contract this is an invalid claim.

#Skyline - December 21, 2018, 5:44 pm

You're a fucking idiot mate.

You did a deal that has nothing to do with me, and cuz I don't provide contact info, you post up this thread.

Fuck off mate.

How does me saying "I work with him" make it a vouch ?

You're so salty cuz I blocked you for spamming me with PMs about a deal that has nothing to do with me. I don't work with Dean anymore. You already have his contact information. He coded you a program, not me. The deal was between you and him. Just because the guy paid me to sell his programs doesn't make me a bad person ?

So in your logistical point of view, because #Skyline previously worked with said scammer, whom you recognized ripped you off, not #Skyline, he is now liable to be pointed out because of your loss??

J?ey - December 21, 2018, 6:20 pm

You asked if he would vouch for his current business partner.. He said yes (because they have/had a working relationship together when you asked him), and then you have an an off-deal with his partner on a completely unrelated service to Skyline. I don't think Skyline would openly direct you to someone that would scam. It sucks that it happened in the way that it did, but why are you making threads about Skyline when you should be making it about his partner?

You are placing the blame on someone whom is not involved.

Get your shit straight and go after the person responsible, and not proxy blame to someone whom clearly had nothing to do with this other than he knew the guy and did business with him previously. ???

I think this is a valid community alert.

#Skyline? vouched for the user who scammed the OP. OP sent a PM to #Skyline? asking for a vouch and #Skyline? replied with "yeah I work with him", hell, that could even be construed as #Skyline himself assisting the scammer.

yes sucks op was scammed but skyline CANNOT be held responsible for what some other idiot he MET online did.

would just be like if u vouched for smooth deal with a CE then he goes rogue a month later. do u want a guy who got scammed by him to open a Comm alert on you cause posted "had a good deal with user"

#Skyline vouched for a user ("Yeah I work with him") and that user scammed the OP.

OP was clearly looking for guidance and might not have executed the transaction if #Skyline didn't vouch, he's definitely responsible.

So if I am asked if another user on HF can be vouched by me, and if I deem them trustworthy, then you go ahead and get scammed by them, how is that my fault?

I/#Skyline could deem someone trustworthy based on my/his personal experience but that has no correlation with how they deal with you, in this case, allegedly scammed you.

Learn to take responsibility for your lack of awareness of the situation instead of blaming someone else.

Even the user he did the deal with I don't work for anymore and all this is just past shit. OP has the user he did the deal with on Discord. I don't need to provide any contact when he already has contact.

So how do I even get this resolved if I cannot resolve this because it has nothing to do with me in the first place..... People just want to attack me here because I do better then them. So many jealous cunts pffft.

And the fact "#Skyline' keeps claiming "oh he has his contact info' like why in the hell would I PM him asking for contact info if I had contact with the said scammer.

And, why should I have to deal/or any of his customers have to deal with anyone other directly then him for product he is selling - CrackAttack, as said. I have PM'd asking where the said updates for this program are, and he can't even give me the contact details for his partner for that. lol

Then when asked about update or refunds - no response/ when I ask for details of the other user to contact him for refund or updates. NO REPLY BACK. Now #Skyline keeps stating "I have his contact info'. Why in the hell would I start this thread if I need the contact info still and have to bug him 5 PM's before starting this thread.

Sorry for your loss OP. Skyline is a known liar and multiaccounter. Some proofs:

His old account: uid=1232842

Skyline using fake proof in his e-book sales thread:

How do i know that this is fake ? Because this screenshot has been used in another sales thread. Original post has been deleted and skyline just copy pasted it. Scummy move. Also parasite owner can easily confirm that he does not own a license of this botnet.

Another proofs:

Spoiler ([Click to View](#))

He claims that all his methods has been never seen before, but he is selling: Minecraft, email, runescape, e-whoring spreading.

So he is selling public/known methods as his private ones. Another scummy move. If you dont believe you can just google his e-book.

If your brother commits a crime and you're in the car. Are you charged.. Yes, as an accessory.

Simple.

"An accessory is a person who assists in the commission of a crime, but who does not actually participate in the commission of the crime as a joint principal. ... If two or more people are directly responsible for the actus reus, they can be charged as joint principals"

You are broken, to say the least.

You have referenced a deal dispute against ONE member and are going after ANOTHER for retribution.

You good sir are broken, in logic, dispute and everything otherwise.

I out of curiosity decided to take a look at your threads..

I noticed something odd.

- You have a dispute against that monk retard, but you filed no valid dispute against him fully, instead you took direct aim at #Skyline, may I ask why?

This will be my only post on the matter so listen up you two bob half a shilling cunt...

Tell people the full story.. first of all, you paid for me to make you a bot.. which is nothing to do with skyline or anyone else on this forum.. it was MY thread not linked to anyone offering me design bots for people.... true or false? yep fuck boy true you know it i know it.

"Not at all, Skyline won't provide updates or refunds for product he sold lol" WTF are you talking about little cunt boy...?? really the products I sold with skyline has nothing to do with this... you NEVER brought any of the products, in fact, I GAVE them to you for free! true or false? yes, cunt face I know it's true and you do also.

"lol > Skyline has more contact info and has told me he has his name to contact via facebook etc. They both blocked me for updates regarding a program sold by SKYLINE. I don't know what you don't understand here." updates for what you mug you never brought the products why would I or he update you on them funny cunt...

You are butt hurt as because skyline and others blocked you as you spammed them non stop to ask for information about me, I told you before even in the content you posted here that if you want to know my number, address and all that fucking ask me! not once have you.. you are a keyboard warrior cunt.. o fuck me watch out some cunt from HF is going to call me or message me on FB holy shit please don't you will do fucking nothing.. post about me online o fuck don't, please.. lol

Anyway, with that being said let's get to the matter in hand.. people are probably falling asleep reading this by now so i will cut to the case.

You paid for a bot yes, agree, i was late with the bot 100% agree you then started to send PM's that where angry ok i accept that no issue, then you start mailing me (via throwaway email addresses cos your so fucking hard) saying you're going to attack my family and rape my sister lol, you then even posted via HF PM system, saying you will take more action and making it clear you where talking about your past threats.. now Mr Fuck face. I asked you to take all that back and say sorry and your bot is ready or you can have a refund. I have not had a sorry or anything I don't care what is owed or about your bot....

You would not say shit to me in person about rape or my family, I don't give 2 fucks about you posting shit online do it like any of my team give a fuck..

Why are you asking all sneaky (asking for my details) and NEVER once asked me? I smell pussy...

now you're calling out others that have nothing to do with my bot building at all.. its just a sideline for me and has nothing to do with anyone on the forum skyline included.

It's even funnier your calling out skyline, and you have never brought any product provided by our partnership.

Let's have it right your crying and can't do shit so your making (is it 4 threads now) and calling out to anyone that will hear you.

The reason I blocked you on discord little cardboard cutout cunt is you just banged on without saying sorry..

Fuck you how is that for ya..?

I am not active on HF but you can PM me and cry some more.. or if you're going to do something then do it or fuck off get me? :)

Skyline or the other 2 people you have messaged have nothing to do with my bot work in any shape or form who is your contract with me or someone else>? me right? true or false...? true I know it you know it fuck boy.

Asking people for my phone number little cunt but cant ask me.

anyway, I think I have wasted enough time on this now...

p.s did I mention fuck you?

:)

I/#Skyline could deem someone trustworthy based on my/his personal experience but that has no correlation with how they deal with you, in this case, allegedly scammed you.

Learn to take responsibility for your lack of awareness of the situation instead of blaming someone else.

I believe this to be true although if Skyline is proxy selling for the guy then he should discontinue all relationships with him which I believe he has said he did.

(Dec 22, 2018 07:44 AM)Angelis Wrote: [\[CITE\]](#) But, proxy selling is allowed...
<https://hackforums.net/showthread.php?tid=5452026>

Regardless, you can not hold #Skyline responsible for someone elses actions.

If someone goes out and commits a crime, you dont go arresting their brother/sister, you arrest them.

Same shit, different scenario.

To clarify on this, you can actually open a deal dispute with the proxy seller if you were scammed.

Correct, but in OP's case he clearly made the contract with the developer, NOT #Skyline, so why is there this thread and nothing about the developer? I mean for a dispute to be valid you have to go after the person you had the dispute with, not their friend... Correct me if I am wrong here.... ?

True, but Im pretty sure you know what I mean...

This thread serves no other purpose other than to slander someone who simply knows the developer. End of day, thats what it boils down to, my largest confusion here is why OP is not targetting the scammer and going after the proxy. ?

Well there are some grey areas around vouching for him and shit. Honestly though, I don't have a dog in this fight. I've never had issues with Skyline but honestly anyone on here could be scamming. Sooooo yeah. I don't want to give any of my opinion.

Agreed, I am not taking a side myself, but Look @ OPs threads, hes not even addressed the guy who ripped him off, even with a contract. Instead hes picking on Skyline. That is not logical to me... That's ALL I AM SAYING.

Dont shoot the messenger when you know the culprit directly. ?

lol, I can't say there was anything in those emails saying "I would rape your family nor sisters' Imfao just simply asked for my money, but I am sure you probably recieve those emails on the daily knowing how much of a fucking loser you are. lol

You gave me the programs since you never completed the programs actually too buddy wanna see your messages "this will be compensation with updates of both programs' lol wanna see the screenshot?

Nor at ANY TIME did you say sorry and I will update or refund you lol. Again, you and #Skyline are both lying fucks lol.

You just admitted you did work for me and scammed me right on this thread and it is going to be directly reported to staff. As they are looking into you that I am aware of. lol

So yeah, #Skyline obviously still has contact with this guy.

Short story short, #Skyline is selling programs with "continued updates" that never come - with the "continued updates" being 2/3 of the program anyways.....

How is this still going on? Skyline is not guilty here. Perhaps some shady dealings but definitively not a scammer.
