Thread: [FREE 100% Working Method - UNSATURATED - \\$3000+ Monthly](#)

Cryptod - December 22, 2018, 3:05 pm

Hello Hack Forums,

I wanted to introduce myself with a HOT NEW method that's basically unheard of and I only posted this on one other forum. This has made me \$8000 in 3 months since this has been out.

I'm very clever when it comes to making methods and I target very specific markets.

This niche is Fortnite based.

As of right now Epic Games (Fortnite) has a support a creator program. Basically any person can set you as their "Support a Creator" and every time they spend \$100 in game you get \$5.

You get 1000 supporters to spend \$100 that's \$5000 for you.

"The average Fortnite player who coughs up money spends \$84.67, according to a new study by financial services company Lendedu. Nearly 70% of players buy digital items. For all players, spending and not spending, the average becomes \$58.25."

So now where am I going with this?

Here's the method.

Requirements:

An Instagram Account based on Fortnite with at least 2000 followers (fake or not doesn't matter) with real content and some legit likes/comments.

Step 1. Register as a Support a Creator on Epic Games

<https://www.epicgames.com/affiliate/en-US/signup>

Step 2. Once Approved, make your Instagram based on "Fortnite Vbucks Giveaway" or you can do just general "Fortnite Funny/Clips"

Step 3. Include on all your posts that you are giving away Vbucks or a \$100 gift card every single post if they dm you a picture of them using you as your support a creator.

Step 4. Gather your supporters and wait for the money to pile up.

You can EASILY scale this. If you want to make real money you'd listen to me now and scale the hell out of this.

I just wanted to drop this gem as my first thread so I hope you guys can appreciate it as it's very unique and if you guys want to connect PM me - There is another way to make this method spicier but that's for you to find out :)

You can only give people the recipe - most people won't cook you know :/

Yes sir it's completely legal and WH.

I mean the faking giveaway part isn't but if you actually giveaway stuff it's completely WH.
