Thread: [\[VIDEO\] App Promo Video](#)

SIM-964740 - December 22, 2018, 6:17 pm

I am looking for someone who can create a high-quality promo video for my mobile application. I have made a mock up on RenderForest - I want the same ideas from this mock-up in the final product.

What I will provide on service initiation:

- Samsung S9 3D Model (Element 3D Ready)
- Mock-Up Promo Video (For Reference)
- 30% Payment Upfront

Video Length: 45-60 Seconds

Output: 1080p

Music Required: Yes

Need someone with good communication and skills in Adobe AE (or other software on consultation). Please send pricing and rough ETA for project completion.
