Thread: [Where to find process name that Antivirus runs with?](#)

stdio - December 23, 2018, 7:29 am

Hello,

I need to check if a certain running process is related to antivirus or not, for that I need all process names that are used by antivirus.

I remember back in 2011 there was a batch file (to kill AVs) it had list of all antivirus processes, may be someone has similar list for 2018 :)

Thanks much

5chn4pp - December 23, 2018, 7:31 am

Whats the name of the process? I can quickly find it out.

stdio - December 23, 2018, 8:02 am

I actually want to have a list of all process names that are used by antiviruses, so I can loop through all running processes and find out which antivirus is running.

That would be hard to find because many antiviruses also use drivers, services etc. I hope someone has the answer but sadly I don't.

Here are some:

Comodo- cfp.exe

F-Secure - fsdfwd.exe, fsguiexe.exe, fsav32.exe

McAfee- MSSCLLI, MCSHELL, MPFSERVICE, MPFAGENT, MCODS, MCSHIELD

Norton - nisum.exe, navapsvc.exe

Trend Micro - persfw.exe, ntrtscan.exe, tmntsrv.exe

Avast- ashServ.exe

Panda AntiVirus- AVENGINE.EXE

AVG- avgemc.exe

ZonevAlarm - ZLCLIENT

Microsoft Security Essentials- msmtpeng.exe

Thanks I really appreciate, hope others also add and we can develop a new database for 2019 and onwards ;)

Fuck the AVs

Fuck the AVs

Yeah that would be wonderful!

Just realized I misspelled the word "here"

Could you please edit your quote and fix it for me?

I can't post the code here because of my phone.
