This is a little method I have discovered and It has gotten me over 150 new adds in like 4 days, so I decided to share it with the community.

I'm only going to be selling a few copies because I don't want this method to get overused.

Unfortunately I haven't taken any screenshots of the recent Account growth/Adds but I did log into my meme account and saw that since this morning (3 hours ago) 12 more people added me. This isn't the best proof but it's unfortunately all I have atm ?

It requires about 5 minutes of work to setup and it could work with pretty much every Niche. Ofcourse the more time you put in the more results you're going to get.

bluestacks. Although if you wanted to put snapchat on bluestacks I guess you could.

Giving out any vouch copys?

"It has gotten me over 150 new adds in like 4 days, so I decided to share it with the community." Thanks for sharing but 150 adds in 4 days is not much in the eWhoring section. Since you can get 1.000 views / adds in a couple of minutes with free traffic sources. But I don't know your method or have any informations about it so good luck with sales.

"Of course the more time you put in the more results you're going to get."
