Description

He pmed me after I posted my thread above. We talked on skype about the assignment and he said it would be done by the next day. The next day came, he said he wasn't home.. etc etc.. 3 days later, he's still ignoring my messages on both HF and Skype. Nothing else to say.

There's 3+ disputes posted about him scamming for the past few weeks, and nothing has been done. My fault for not searching his name prior to dealing with him, but yeah, pretty weird that he's still roaming around scamming. Also, he wanted BTC but I went with paypal and will be charging back for \$15. Imagine scamming on a 4+ year old acc for \$15 lmfao.

Would be nice to see something done to this kid after the amount of dispute threads that have been posted about him.. (not even counting the ones that haven't been posted because of the such small amounts he scams). Check his post history, there's kids who reply to him complaining about him not replying after they sent him the money, etc.

Why you all are getting scammed by this same guy is mind boggling.

Yeah hopefully his downfall is coming soon.

I feel your pain Op. It's sad we have certain members hurting the integrity of this forum. In my case, I was too trusting and got scammed (congrats, I played myself) though you seemed to have followed the right procedures "and still got scammed."

Fraudsters need to be penalized extremely harshly (More than just getting permanently banned) to set an example so issues like this aren't so rampant.

Interesting. Nothing has been done to him.
