Thread: [Scammed by Chloe Price UID=3708374 for 200\\$BTC](#)

JEDFAM - December 25, 2018, 7:10 pm

The user was supposed to provide me with the backend code of a site, before 25th December. He started ignoring me on discord for 24 hours, then pulled up some terrible excuses where he says he is sorry and so on: <https://gyazo.com/870db265d19111aeb1ae708868b8ebdb>

He then proceeds to send me a screenshot that you can see in the screen above, which is a screenshot of some github project you can find here: <https://github.com/ztizzlegaming/CSGOWinBig/tree/master/src/php> (this project has nothing to do with what he was supposed to deliver. Just some random files that could only fool a 10 year old)

He then pretty much admits it here: <https://gyazo.com/8f3216bd6e4651b4335520a81c1fb88b>

no he was supposed to give me the backend of a site. He then gives me some files he found on github which has nothing to do with the website he was supposed to get.

Looks legit, op doesn't seem to care tho as he react kinda childishly by sending rare pepe. Next time hire a professional (also note that for a full backend work done, if you pay peanuts you get monkeys..)

This seems legit to be honest. I have been talking to the accused scammer over discord for some days and he is EXTREMELY desperate for money..

ryderpanel - December 26, 2018, 11:53 am

He tried to scam me my AGC UK expect me to go first with the dispute, then tried to get a fake

middleman....

Sorry for your loss op if you want the actual skinhub file I can sent them to you on discord if you send me a pm, no charge for your loss :)
