Thread: [Done For You Copy And Paste Passive Business Method And Lead Multiplier](#)

DaGeekin - December 25, 2018, 7:23 pm

I have a strategy that will blow all your minds! Its a pre setup Affiliate Business that you can duplicate with a few clicks and change a couple links and it will be set and ready to go! Also I have a tool that will cause a viral effect making it so you can multiply each lead you bring to the page! People are making money without that extra multiplier, With it the effect can be insane! Pm me for details or post on this thread!

I'm interested. You should provide a virus scan of your tool though, OP. Pretty much the etiquette here.

So excited for you! Mman cant wait for you to get started on this you wont regret it! That thrill of seeing peoples sign ups come through is amazing check out my training and follow it k. This system is so easy to setup that if someone couldnt manage to setup this method then there is no business online that they can get started with! Everything is done for you and ready to implement. Just change a couple links and do a couple signups and get it out there!
