NAME : lights out

I think about my unfair subject and my level of English ..

I have given negative points and this point is unfair!

I don't even know this guy.

I want the admins to do what they need.

When will the laws of this forum work?

Anyone who does not react to an injustice is a mute demon.

I will fight!

I will protect our rights!

I'm just defending my right This is Texas? where are the laws?

if my subject and english level is bad

he can tell me by "private message" and tell me to fix it.

but the main problem I have complained about is the crypherIt program and so I believe it is.
also, he is free to do it so he can give me red points.

I complained to her.

What's wrong with that ? Do not live in a free world?

You are extremely annoying. You fail to read any of the [Help Docs](#) even though I repeatetly referred you to them, and then you proceed to call us corrupt and now this thread?

Be gone troll.
