Thread: [Hi, I am literally the illuminati](#)

Hello, I am on a mission from God to take over the planet. I have all sorts of illuminati plot schemes involving ethereum dapps and converting people to Progressive Christian Transhumanism to take over the universe.

Anyone want to join up?

Also, looking for a hacking group to join.

Name explanation: two sisters on a mission to take over the planet. Girl power!

Your are not the real Illuminati? There is already a illuminati in this forum, he has the picture and everything he must be the true illuminati? Are you Illuminati brothers?
