Thread: [The HF Game Roadmap](#)

Omniscient - December 27, 2018, 1:50 pm

I have discussed this with Xerotic and we are in agreement that the gaming aspect of HF is now the front our development tasks.

For now we're just calling it "the game", unsure if it will get a better designation.

The game will be coded mainly from scratch with aspects from HackerForever.com (which I own).

Before we begin the deep coding we're going to upgrade our Font-Awesome library. That will provide us a lot more icon options for the game. This we hope to accomplish today. So you might experience some CSS and layout issues at some point today. We will make threads about it and provide instructions for any cache pages that have to reset.

We'll develop most of the game on Knotbb.com (HF's Dev site). We will start with redoing the Crew CP and instead making it a Game CP. It will be the hub for how the game will be navigated and controlled. On our current HF Crew CP you can see some of the navigation options already. We are reviewing carefully HackerForever for gaming functions we want to adapt for HF. Members will get gaming profiles, we'll setup shops, and add the ability to create your system and setup for the game. Once members have fully functioning profiles we'll add the gaming functions. At that point we'll look to develop Crew integration with the profiles and game.

I hope I've explained enough about this. Still a lot of work ahead but imho today is the first day of real development for this project. I expect 3-6 weeks of dedicated time into this project. It's going to be vast and the largest addition to HF ever created.

Enjoy and thanks.

Never seen this done before in forums tbh. Really have high expectations and I'm looking forward to what you guys are working on. Thanks for the time/effort.

Makaveli The Don - December 27, 2018, 2:08 pm

Excited to see this develop. Good luck with everything Omni, starting the new year strong!

Lemon-Haze - December 27, 2018, 2:09 pm

Seems like a pretty unique concept. Looking forward to seeing this in action Omni!

webdev77 - December 27, 2018, 2:11 pm

Looks like Crews will be taking on their first real tasks in the next several weeks. Very cool and thanks for the update.

Pyro - December 27, 2018, 2:13 pm

glad to be part of the new era of HF

Crypt - December 27, 2018, 2:14 pm

Really excited to see what will come of this.

NERO - December 27, 2018, 2:23 pm

As long as bubba can still be part of it, I think we can all get behind it :)

Angel - December 27, 2018, 2:41 pm

Sounds awesome! thanks for the update :)

iNviZ - December 27, 2018, 3:20 pm

I am really looking forward to this. Best of luck.

Evanescence - December 27, 2018, 5:36 pm

Can't wait to see this working. Excited to play these games.

Thanks for the explanation and well, with that being said, this will be a big piece to the HF puzzle. I can't wait! :)

pubmaster - December 28, 2018, 5:50 am

I am on HF for more than 10 years and haven't seen project big as this!

Good luck !

F11 - December 28, 2018, 6:40 am

Sorry if this a dumb question, but is there a thread or something with a little detail or info about what the game "is" ?.

I mean, type of game, goal, features, whatever.

Hero - December 28, 2018, 7:40 am

Holy damn, im so glad that im already in a crew. I bet the prices of them will skyrocket once the game is fully implemented.

Hats off to you Omni!

RedRogue - December 28, 2018, 8:04 am

This will be awesome and hope to see the game soon

That's a sample of what we're trying to accomplish. It won't be exact but you'll get the idea.

Really would like to see this in action, even if you need support in game design and development process you can let me know, my regular customer Vit can tell you about my work for his needs :)

Vitani lol :)

Ram - January 2, 2019, 12:38 pm

I like the sound of this. Is it still available to try the older version of the game you own?

Thanks for the link. Btw since its gonna get implemented on HF are bytes gonna be connected to the game? Like a currency? and are we gonna be able to earn it thro the game?

Thanks.

Allelujah - January 2, 2019, 6:09 pm

Wow, this sounds really cool. Good luck!

Hate to say it brother and I hope I'm wrong but kinda seems like a flop
No way nothing like it.

Vazity - January 5, 2019, 9:08 am

Can't wait to get to the top with my crew :)

Lots of members played and enjoyed Minecraft. I never consider it a flop. It just wasn't the right project for me to run as it was time consuming and annoying. But a flop it was not.

Effexion - January 5, 2019, 9:45 am

Wow, as someone who uses the HF games a lot, this really excites me. I can't wait to see what you roll out.

Bacardi Cola Lime - January 5, 2019, 10:18 am

Now that this info is known, Crew leaderships should pick their members based on skills required for the game.

Omniscient - January 5, 2019, 10:46 am

Well here is a screenshot of what we're working on.

Some of those... might not... be so small..? ?

Looks good though, I'm not incredibly active anymore but it's made me curious enough to explore purchasing a crew.

Edit: Nevermind, looks like Terror was taken. Someone else remade the group. Oh well.

Do crew members affect the sucessrate of certain activitys?

Will there be a progression system for active crews? Rewards?

These are considered "beginner" hacks. You can do them yourself without interaction of other players and they are straight chances. BTW in some of these if you get caught hacking you get sent to jail for a little bit in game :)

Ah that makes more sense. Maybe explore changing "small hacks" to something along the lines of "solo hacking" then?

LMAO!

My bad, was kind of tired when I read the thread and thought it was another Bytes game. Kind of gutted it isn't but this looks like it will be interesting regardless. Thanks, Admins.

and Btw omni, what's gonna happen about hackerforever? will the website still be up and the game will be as it is there?

Cuz I just had an idea.. you could redirect hackerforever community and fans to hackforums game.. that way they don't feel left out. and they can enjoy our version of the game!

maybe a redirect to <https://hackforums.net/hackerforever.php> with explanation on whats happening with it and that it's gonna be part of HF (the real HF lol). I think they will be interested in joining Hackforums as well (obviosly they played the game and enjoyed hacking so why not join hackforums?)

?

I will likely just leave Hackerforever as-is for now.
