Thread: [Instagram Account Management Slot](#)

Renovatum - January 1, 2019, 6:39 am

Quick post:

I'm giving away a couple of slots for my Instagram account management service. If you're interested, read the below requirements and post OR pm if you qualify. Thanks

Must (Either or all):

- Have above average standing within the HF community. If you believe your presence is in any way impact or influential here (highly positive reputation, known by many, very active poster, known for something, etc) then post or PM

- Have a reason for wanting to use Instagram. If you have a business or service that people outside of HF could use, or if you have a stream or YouTube link, let me know via post or PM

I'll be back to check on the thread later on in the day; hopefully I'll be able to start replying to requests tomorrow.

Note that I do NOT USE Skype, Discord, Telegram or any other messaging app outside of HF with people I've just met. Anyone whom contacts you outside of HackForums before I've sent over a username is an imposter.

Note that you do not need your own Instagram account for this-- I can create one for you!

I'll send you a private message within the next couple of hours. It looks like nobody else is interested!
