Thread: [Need help with corrupted excel spreadsheet](#)

jakewheat2012 - January 1, 2019, 2:47 pm

Hello HF, I am having an issue with a corrupted excel spreadsheet. When opening the file, I get the error {the file format and extension of don't match excel. the file could be corrupted or unsafe}. When opening the file, it opens with a bunch of weird symbols, and it doesnt show any text. I have tried open and repair tool, but this doesnt work as well. I was wondering if anyone would be able to help me fix this issue.

Thanks HF,
Jake

Hello sir.
Youre in the wrong section.

Please,
We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Youre in the wrong section.

Please,Have you even read the help document, yourself? It provides no actual help for choosing forums. Don't be some generic pleb.

OP, use <https://hackforums.net/quickthread.php> to find the best location/
