Hi CerebroTech ...

please go to your discord and attend to people.

I purchased your product and it is not reporting..
I have use smtp
webmail
ftp
cpanel
and all didnt report.

This is just the same old hawkeye format, I thought with you that there will be a change.

Thank you!

@adster I can't send you private msg. I am posting your queries here.

Q: didn't find any thing if its .net dependent?

A: Yes it has .NET 2.0 since its coded in VB.NET

Q: can a get screenshots of a web panel to see the option?

A: There is few on thread but you insist then please you have to wait until I will post here in detail. Meanwhile you can take a look our web-panel video

<https://www.youtube.com/watch?v=BOzvgci-DoE>

Q: does it have offline keylogger?

A: No

Q: does it send logs to the panel automatically?

A: Yes as soon as server execute.

Q: is it possible to run exe or dll on bot through the panel?

A: No

Q: can I make tasks for all bots at once?

A: Didn't get your point.

Let us know if you have more questions regarding our product.

@morrgan thank you for your comment here, first I am not a Nigerian, and second you requested
the other member who is @woo to pay you so that you can assist him and this is against our term of
use. you should be happy that I only kicked your ass out of the forum which means you can still
