Thread: [\[H\] Steam Games \[W\] 250 Gems or Steam games \(1 : 1 \)](#)

Money- - January 2, 2019, 5:16 am

I have some games. Games that are for library count. These games are low value games and only for collection.

Willing to trade them each for 200 gems in steam or if you also happen to have low value games that I don't own we could also trade. 1 : 1

PM me for the list of games if you are interested.

I'll start a contract once an agreement is reached.

Anyone willing to trade? Just curious. PM me if you know what this is.

Sadly any Steam trading has died on HF or has been reduced to minimum.

Hmm, why is that so? HF is a top traffic forum imo. Tell me your experience. You got games to trade or gems? I am a collector so yeah.

Anyone still doing this? Let me know

I have 100 Gems for you, but I really need OSRS GP and not a Steam game. If you can get your hands on some OSRS GP I got you.

What's that? If not mistaken its like RuneScape Gold? I don't play RuneScape though.

Yep.

If you need games I have \$19.99 on my Steam account. I can buy whatever game(s) you want for that price for 80% PP OBO. Lmk

I'll go first.

Ah Normally I'll do this on during steam sales for extra discount. I see people doing this for 50% off before. Thanks for the offer though. But I am interested in steam gift cards if you have to offer.

This is my thread.

I am verifying steam accounts so yeah, sending a digital steam gc with ur balance won't work either.

Low tier games for library count. Price changed to 200 gems each. Let me know in PM. Thanks!
