Thread: [Turned a \\$25 bankroll in to \\$410](#)

indicud - January 2, 2019, 8:42 am

I've been playing off and on since Friday, I deposited \$25 in the morning and played it up so far to \$410. I've already withdrawn \$250 and tomorrow when my pending withdrawal goes through I'm taking another \$100 out.

I've been playing nothing but live blackjack on Betonline and doing really well :D

So far I've received my first withdraw of \$130 in my Coinbase account and tomorrow I'll get the \$120 withdrawal there as well.

Anyone else do well on live blackjack?

EDIT: I'm up to \$600 now guys

Really a dope profit with a little investment, I'm not good with blackjack unfortunately, I was looking for someone that could bring me in the right way >.>

Lost most of my bankroll and I'm down to \$190 but I already cashed it out, I'm waiting for my next paycheck from my job to deposit another \$30 or \$40 and give it another go
