Visually, there's not one that "wows" me, but most of them for DB, DBZ, DBS and DBGT are good. In terms of song, I love "Rock the dragon" from Z , "Bit by bit" from GT and "Dragon soul" from Kai.

Rock the dragon was my favourite intro, didn't want to comment at first because I read dragon ball, but since someone else is as well.

It was around the time of GT where I stopped watching it

GT is pretty bad and doesn't make sense.
