Thread: [\[\\$600+ DAILY\] Private HIGHLY PROFITABLE Shopify Niche || Partnership Available](#)

XYLA - January 6, 2019, 11:03 pm

Profitable Shopify Niche

Let me first start off by confidently saying that e-commerce is one of the biggest opportunities of our generation and yet so many fail to realize it. I too was naive, I didn't see much in shopify/dropshipping until a new friend in business school showed me his successful online business. I managed to convince him to show me the ropes and I ended up joining him in running his operation. In just 4 months I managed to increase his weekly sales by over 100% with my marketing expertise. In my spare time I would cover as much time as I could on researching niches, logistics, case studies etc. and eventually decided to launch my own shopify store. I was successful in no time and my products took off in sales generating around \$500+ daily! I now run 2 shopify stores of my own and also still help my friend with his store. I've been really fortunate to be mentored first hand but I know many of you don't have access to such an opportunity. For this reason, I will be reaching out a hand to a few members of our community to help them get started with running a successful shopify store.

You will be provided with a highly profitable (long-term) niche as well as a complete blueprint on how to setup from start to your first sale. The niche is completely legal and has phenomenal demand with juicy profit margins (50%+ profit per sale). The setup can be accomplished in a day and profits are expected to pour in immediately due to the nature of this niche. The product you will be selling tends to be very highly reviewed and is shipped via dropshipping. My blueprint is completely fool proof and can be accomplished by anyone.

What's Included

- Highly Profitable (Long Term) Niche
- Complete Setup + Marketing Blueprint
- Product Sourcing Links + Logistics
- Personal Skype Support
- Exclusive Bonus Content

I also offer an exclusive package where I will personally setup your shop for you. I will also act as a partner in your business and will manage your store + provide assistance and advice in exchange for \$250 + 15% of all profit made from the store.

Pricing Model (BTC & ETH ONLY) (0/5 COPIES REMAIN)

[\(CLICK TO BUY\)](#) || \$150 || Standard - (Niche + Setup/Marketing Blueprint + Skype Support)

[\(CLICK TO BUY\)](#) || \$250 + 15% Royalty Fee || Partnership - (Niche + Setup/Marketing Blueprint + Personal Setup & Management)

(\$50-\$100 IS RECOMMENDED AS AN ADDITIONAL INVESTMENT FOR SETUP)

Any vouch copies?

I've seen plenty of guides regarding Shopify on here which claim the same but turn out to be very saturated methods.

Approx. \$50-100 is recommended as an additional investment during setup (it's not mandatory though). Profits tend to span from around \$200-500 daily and I will be taking 15% of the profits as a royalty fee.

Absolutely no vouch copies are being handed out due to the nature of this niche. If you aren't interested in taking advantage of this opportunity then simply click away from the thread. I am here to help the community but won't just be giving handouts.

After speaking with Quiet for a while I was really impressed with his knowledge on shopify and decided to purchase the partner package. So far everything is looking really good. Quiet is very responsive and is currently assisting me with setting up my shop. Also this niche is looking very profitable and is unique, this was something I was definitely not expecting. I went ahead and took a look at the guide even though Quiet is setting up for me and everything is very well explained. Very excited to get this store going and get profiting. I will keep you all updated on my progress. Thanks so much for this amazing opportunity Quiet!

Amin56 - January 7, 2019, 3:15 pm

Added you on skype , really interested on this opportunity.

Is it necessary to invest in paid traffic? English is not my main language, is it necessary to have good command of English? I'm interested

FYeah - January 7, 2019, 3:46 pm

Sounds very interesting.

Are you able to assist with setting up a shop for UK, as in all settings are set to abide by UK tax laws etc. Which I believe is 20%..?

Sounds like you know your stuff when it comes to shopify, it's always been something that interests me but every thread I usually see requires a few hundred ££ before starting.

You say the niche is profitable (long term), are we talking months, years? Also, if we purchase the package with the 15% royalty fee - say the niche becomes oversaturated or dies down for whatever reason in sales - will a new niche be provided ?

Thank you, sorry for all the questions.

mashemaru - January 7, 2019, 3:53 pm

When I purchase the partnership, would I be making the same website like the other 4 who would bought it?

Appreciate your interest plenty! You won't have any issue setting up your shop in the UK. I can definitely assist you with setup and workarounds for taxes etc. Currently due to the nature of the niche, I wouldn't expect any sort of decrease in demand/sales for the upcoming years. If this is the case, I will either provide a brand new niche or a full refund.

In terms of investment, it is true that most shopify stores require hundreds of dollars in investments. Surprisingly that is not the case with this niche, the demand is so furious that almost no paid advertising is required. It is recommended but not mandatory to have an additional \$50-100 to invest during setup. Hope this clears a few things up for you!

(Jan 7, 2019 04:53 PM)mashemaru Wrote: [\[CITE\]](#) When I purchase the partnership, would I be making the same website like the other 4 who would bought it?

Yes, you will be receiving the same niche. At the current moment, demand for this niche is absolutely overwhelming and having a few new stores won't change anything. I also am selling limited copies to prevent any sort of saturation.

Thank you, definitely answered my questions. If you still have a \$250 package available on the 18th (when I get paid), I'd be interested in purchasing.

Would also be cool to see some proof of earnings of the shop you set up for the guy who commented earlier (KÖRBL)!

Due to the nature and demand of this niche, profits tend to pour in nearly immediately after launch. With the partner package I would be setting up the store for you and will also assist you with maintenance, troubleshooting etc.

We are starting to reach our final few packages, join now before it's too late!

Hopefully should be seeing some reviews shortly. Members are starting to see some really great earnings but I don't push any members to vouch, that is their decision at the end of the day. I respect privacy and it's funny because I've learned when members actually start earning they prefer not to share their earnings to keep the method as "private" as possible haha.
