Sounds like one of very few premium HF products.

Kind of, I'm not too familiar with the premium products but I promise theres no way its one of them because its completely unsaturated. Very few sellers, theres no way someone here is onto to it.

That's what I'm looking for a good member to vouch for the item and prove my point. Just sketched they will sell it behind my back so I'm looking for someone with a history of reviewing and being true to their word.

Also would you mind posting the picture i linked in my post in the right format in your comment since i cannot. Thanks so much!

This method is simple and straight to the point! Did my research and you can make insane profit from OP method!

His method is for sure worth your time and it's the very few methods on HF that will actually work and worth purchasing. Profit margins are insane. Seriously you should invest in his method because you will make your money back the same day + amazing profit! OP has my vouch!
