Thread: [HF Game Question](#)

Omniscient - January 7, 2019, 4:51 pm

Xerotic and I are working on the Hack Forums Game which we hope to begin implementing this month onto the site. It's being worked on at the beta site now.

The game points are not going to be Bytes because we don't want the game mechanism interfering too much with the site function. So what we'll do is name the game points something else and it's likely we'll have a way for you to buy the game points with Bytes and also to cash them out.

I'd like to ask the community what they feel would be a good name for the game points?

I was thinking Bytecoin so that is mimicked a crypto but there is already an actual Bytecoin. We're also just thinking of calling them dollars (\$) to feel more simulated to real life money.

Any opinions on this or great ideas for a game point currency name?

TCP - January 7, 2019, 4:53 pm

We have bytes as forum currency

Let's use bits for the game

iNuke - January 7, 2019, 4:54 pm

Dollars seems fine with me tbh. It adds more "reality" to the game.

Athr - January 7, 2019, 4:55 pm

How about h4x\$?

We had a currency with that name some years ago.

I liked that name.

Prepper - January 7, 2019, 4:56 pm

Probably a stupid suggestion as I am not up to date on this whole game thing but

HackCoin

V For Vendetta - January 7, 2019, 4:57 pm

How about omnicoin? OMC for short (tbt to OMC)

yeah I really like this idea

would be nice because he already has graphics for anything he'd want with it

Lavish Living - January 7, 2019, 5:20 pm

Crew cash

or krona, or just dollars.

looks like sometime this month my crew and I will finally have the opportunity to shit in Infamous' and a bunch of goons' mouths.

Bluffer - January 7, 2019, 5:23 pm

I like the idea of using \$ so its more realistic.

Business - January 7, 2019, 5:45 pm

Bytebits ?

Bytemarks ?

Just random ideas.

Mikutype - January 7, 2019, 5:51 pm

Please I think if you name the currency "Nudes" the overall experience of hf will be improved and more users will come here.

webdev77 - January 7, 2019, 5:53 pm

Is there a difference between dirty money and clean cash in the game?

Going with dollars sounds easiest to understand.

Riggs - January 7, 2019, 6:00 pm

What about something original like Credits?

This is actually what came to my mind right away. It's a cool play off the forum currency in my opinion.

Kill Joy - January 7, 2019, 6:06 pm

What about naming it H4XZ? Hmm.

Gt403cyl - January 7, 2019, 6:16 pm

I'm feeling bits or dollars either are fine choices.

Banter. - January 7, 2019, 7:03 pm

Just shooting out a few name ideas ?

Loot/L\$\$T

Ca\$h/Cash

Karma

RP

Dosh/Do\$h

All i got for now ill Post if anything else pops into my head lol

pubmaster - January 7, 2019, 7:06 pm

Dollar is best imo, it's not long, it's simple and everyone knows about good ol' \$.

reBELLYus - January 7, 2019, 7:13 pm

Bucks, smackers, bones, clams, notes, fortunes.

I sort of like "loot" since it means "illicit gains".

Loot is definitively cool and certainly fitting.

Evanescence - January 7, 2019, 7:33 pm

I'd love to see it named HF dollars.

Why not ? Coin? Don't see why not to just use the hand Greek Beta letter in. Logo could look like a doge coin but with (?)

PerfectStorm - January 7, 2019, 9:30 pm

I think Bits wouldn't be a bad name although they could be mistaken for Bytes considering there similarity.

Human - January 7, 2019, 9:30 pm

Just call it Cash, its a good name.

Crypt - January 7, 2019, 9:33 pm

I think "cash" would be fine but I also like "loot".

Excited to play the HF game.

Deal - January 7, 2019, 11:02 pm

Crowns like we have in Denmark. ?

Pirate - January 7, 2019, 11:12 pm

lego bytes

Cool idea thank you.

Rayner - January 8, 2019, 1:25 am

Just call them Chomps rofl.

Mikutype - January 8, 2019, 11:06 am

Another idea of mine besides "Nudes" is "R@m"

Roytoy - January 8, 2019, 12:09 pm

Unless you never plan on monetizing the currency (having the feature for it to be bought through cash) then don't call them dollars, imo.

If you don't set up a virtual currency people will consciously associate it with real life currency and will refrain from buying it.

webdev77 - January 8, 2019, 12:34 pm

I could definitely get on board with Loot. Sounds like it fits the theme well.

Yeah loot is good with me too not bad idea.

Human - January 9, 2019, 1:50 am

I dont like loot cause it sounds weird. Imagine buying something for 100 Loot. Doesnt make sense.

IBotnet - January 9, 2019, 6:11 am

Keep it simple stupid.

My vote would be for "dollars."

Nas - January 9, 2019, 7:42 am

chips

dough

reserve

almighty dollar

Mr.Magnificent - January 9, 2019, 7:48 am

I'd go for "loot". I would feel like there will be misunderstanding by people who think they can make money off of it when it's called Dollars.

Just my opinion. I liked "cash" too.

farsfededusk - January 9, 2019, 7:49 am

Just go with basic 'Cash' to make it simple.

Elitas - January 9, 2019, 8:21 am

Why not go back to the oldschool HF currency? I don't know what it was. I think it was hax\$ or something

Bacardi Cola Lime - January 9, 2019, 9:00 am

Loot sounds to me more like an item rather than currency.

Here is a list I thought of:

Units, Credits, Coins, Tokens,
Kash, Jewels, Points, Slots, Chips, Funds.

I'm thinking bits would be a good name as well. :)

Omniscient - January 9, 2019, 2:55 pm

The feedback is helpful but I'm leaning towards just dollars/cash.

I think cash would be the most viable and fitting option. Dollars is definitively a close runner up but cash rolls off the tongue so well.

oRequiem - January 9, 2019, 4:55 pm

Only things I can think of is

- 1337 Coins
- 1337 Cash
- oCoins
- BCash

Other than those, \$ is still good and simple.

Positive - January 9, 2019, 7:48 pm

Bits is pretty cool.

A few spin offs you can use in game would be megabits, gigabits, etc.

@Pulse - January 9, 2019, 8:14 pm

Honestly I think straight up \$ would be fine.

Positive - January 9, 2019, 8:59 pm

(Jan 9, 2019 09:14 PM)@Pulse Wrote: [\[CITE\]](#) Honestly I think straight up \$ would be fine.
Wouldn't that be symbolizing gambling with real money then?

Just a thought.

Though I know it's an in game currency, I think it should be completely different than money, gambling or not.

Like in Call of Duty, you have COD points. Etc.

How about HF Dollars, short - HFD/HF\$

Mix - January 10, 2019, 6:35 am

Can we not bring back Omnicoin within the game?

Prince™ - January 11, 2019, 10:42 pm

Just \$ representing the points number would be cool I guess. Or just name it as GamePoints?!?!

crypt - January 11, 2019, 11:01 pm

I agree with what someone else said, Bits is pretty catchy.

Elysium - January 12, 2019, 9:02 am

I see that you're already leaning towards dollars/cash but personally I think bits will sound a little better for integration with bytes(sell/purchase).

Omniscient - January 12, 2019, 4:17 pm

(Jan 12, 2019 05:10 PM)xadamxk Wrote: [\[CITE\]](#) What happened to loot?
Or bits?

That way you could use prefixes as a user gained more and it would look a lot cleaner
I think just using \$ and cash is easier and better for the simulation.

Bossk - January 13, 2019, 9:43 am

I prefer regular \$ since it makes it more realistic.

Effexion - January 14, 2019, 1:45 am

Bytecoin sounds like the obvious answer. It sounds like it could be a real coin and integrates 'Byte' into the name. I don't feel dollars would work, to be honest.

(Jan 13, 2019 10:43 AM)Bossk Wrote: [\[CITE\]](#) I prefer regular \$ since it makes it more realistic.
Oor a '?' with two lines through it like the dollar sign.

Duk3 - January 17, 2019, 9:49 pm

if the game is an official HF game then why not use a name that relates to HF. I would think of the line like PwnCash or HackCredits or HFCred, sorry for the bad suggestions

Maskin - January 29, 2019, 4:33 am

I like Bits or maybe Coins.

How about OMC ?

Shelob - January 29, 2019, 5:35 am

ByteBits and as for short (BB) that would be used among members

Or maybe ByteCredits (BC)

BytePoints (BP)

I like them but they seem too much like "bytes" to me

Macroeconomics - *January 30, 2019, 11:36 pm*

What about Skrilla or \$krilla? Could be fitting I think.
