Thread: [Request of reversing a .sef file or unlock its timer dll.](#)

pi314 - January 8, 2019, 11:20 am

I have a 40mb .sef file which i need to see its source code or unlock the timer that made its license expire. I'm using multicharts to import the file.

I can pay a lot for this.

Twistd - January 8, 2019, 12:17 pm

Please state what you mean by "a lot" also give some more information about what the file actually is. Is it a plugin for multicharts? Made by third party or by them? Is multicharts a desktop application or just web? How does it work? Fill me in please.

I can pay up to 500usd. Yes it's a plugin for multicharts made by a guy using easylanguage code in which a timer must have been added. I need to unlock this file. It's a desktop application.

Okay, you'd have to share all the files needed to get the plugin up and running before I can make a decision as your description is quite poor :)
