Thread: [Xbox and PlayStation Currency Codes!](#)

B e r r y - January 9, 2019, 2:10 pm

I currently only have Xbox cards right now, as someone purchased the rest of my PlayStation cards.

However, I currently have (6) \$25 Xbox codes, and (6) \$15 Xbox codes.

Price is 75% BTC. These are PHYSICAL cards.

I wonder if they only work in specific regions?

Yes, the currency codes I have will only work for USA. However if you use a VPN, you would be able to redeem and use these in whatever country you're in.
