Thread: [\\$500-600 budget \(help needed\)](#)

Artix - January 9, 2019, 7:45 pm

Hey guys! I need help finding the right parts for a custom built PC for a friend, his budget is \$500-600, if you could find me a list for a \$500 build and a \$600 build that would be great, thanks! He wants to be able to play games like Overwatch and Fortnite at 60+ FPS

Again, thanks! ?

This is the minimum I would recommend, add a HDD later if they want more storage
