Thread: [Not receiving PM when normal user sends bytes](#)

Uploader.sx - January 10, 2019, 2:45 am

I noticed that when 2 normal users sent me bytes and I did not receive a PM.

I don't know if it's because they donated from post or it's because they're normal members

Marshmallow - January 10, 2019, 2:50 am

Is it the amount?

I sent you 1 byte did you get a PM?

Edit: also donated from post and one from profile

Are you sure u haven't disabled alerts in options?

Pyro - January 10, 2019, 3:34 am

this happens to me too, i have a thread where I'm giving rep for ?, and when some users send ? i see that only if the post in thread, I'm not getting PM

Looks like it's just for normal users

I noticed the same, I am sure I did not receive an alert the last time a normal user donated to me

Edit: just happened again, a normal user donated me 4 bytes and I did not receive a notification, I think is on purpose to prevent spam

I received a PM when [this user](#) donated me 100 bytes.

Maybe it's the amount? He was a regular user (before he was banned) I'm pretty sure.

Everyone donate me bytes for "testing"

PerfectStorm - January 10, 2019, 5:13 pm

Your inbox probably full empty it out.

I don't receive an alert when receiving bytes from normal users most of the times. It has to do something with the amount?

That is weird I think I always receive the donation alerts.

Omniscient - January 11, 2019, 1:34 pm

Are you talking about Alerts or a PM?

A PM.

I never receive alerts for bytes donations.

That was all i was asking.

Weird then..

Deany - January 11, 2019, 10:23 pm

Same here but I think it's on purpose?

PerfectStorm - January 12, 2019, 2:19 pm

Some normal user send me bytes I want to find out

Prepper - January 12, 2019, 2:49 pm

Out of curiosity what are the normal members post count that donated the bytes?

Maybe it has to do with that because you need X amount of posts to send PM.

Possibly could be it hmm...

I see he has a donation from a normal member "pumpstretch" who currently has only 47 posts.

So I am thinking at the time pumpstretch donated the bytes to him he did not have enough posts prior to sending the bytes. A solution to this would probably to just make it so members cannot donate until they reach the X amount of posts.

Tried getting member to test on me but people are cheap as heck lol just need 1 byte from non upgraded member to confirm.

Pyro - January 13, 2019, 4:00 pm

PM is only working when upgraded member sends me bytes, not normal users

Omniscient - January 13, 2019, 9:31 pm

Okay, we looked into this. It's just going to stay that way. Basically if the member doesn't have PM permissions you won't get a PM. We don't want to do override option because then someone could spam you.

Okay sir!

Thank you
