Thread: [omniscient/admins - messaging system upgrade?](#)

EbonCipher - January 10, 2019, 12:32 pm

Okay first off, I don't have any experience with messaging systems etc, but I'd like to ask if there are any plans on upgrading the messaging system, like on skype, facebook or whatever. Instead of this "email" kind of system. Would be awesome if it was instant, not sure how to explain it, but I'm sure most of u guys know what I am talking about.

Nachfolger - January 10, 2019, 12:33 pm

Why are you posting here? Can't you go off and find existing threads on the topic. The lounge is not for your bs.

EbonCipher - January 10, 2019, 12:41 pm

was meant to post in the "Suggestions and Ideas". Post your negative bullshit elsewhere. Thank you sir or ma'am, can't really tell. have a nice day.

If anyone can move this, please do.

luke - January 10, 2019, 12:42 pm

XMPP Implementation is on its way.

Kosmos - January 10, 2019, 12:43 pm

Why fix something that's not broken?

If anyone can move this, please do. As mentioned, you're the idiot who posted it in the lounge, don't get butthurt when people give you what you deserve.

Mistakes happen, no need to trip over it. I'm just memeing you my dude.

System[X] - January 10, 2019, 12:46 pm

do you have any idea how many emails/pms that omni/admins get per days ?

An instant chat would take up far too much time.

Thanks

True mistakes happen. Your beta male attitude is triggering me, can't help it.

Bluffer - January 10, 2019, 12:48 pm

Are you meaning the contact form? It's probably best to keep it limited so people can't annoy the boss any more than they already do.

Instead of being a dick, you should just report the thread and carry on? What are you coding today Nachfolger?

Nachfolger - January 10, 2019, 12:48 pm

Because the PM system sucks. Conversational style messaging and instant messaging works better.

EbonCipher - January 10, 2019, 12:49 pm

Kosmos - January 10, 2019, 12:49 pm

If you have zero experience with messaging systems and cannot offer anything to replace the current one, what the fuck do you have to offer with this thread?

Cammy - January 10, 2019, 12:52 pm

What's with all the salty ass children in this thread all because Op made a suggestion are we required to act assmad or something to be 'cool' in the lounge now?

EbonCipher - January 10, 2019, 12:56 pm

First, off it's a question since hf have been using the messaging system for quite some time. I think it's called "instant messaging" which is a lot better and easier to communicate with customers through hf or just in general. It would just be a lot nicer if HF implemented a newer and faster way of messaging.

Thank you, appreciate the kindness.

Sorry for coming off the way I did, but I get awfully irritated when someone offers a suggestion, without an actual solution to the apparent issue. I would like a more reactive messaging system myself.

? go make some money bro

Xerotic - January 10, 2019, 1:04 pm

BTW we do plan on having some type of instant messaging here on HF. We just aren't at that phase of development yet. We have some more work to do elsewhere on HF before that becomes a priority. Personally for me I am very much looking forward to the day when I start working on a new messaging system for HF. Last year around April I started working on a proof-of-concept conversational style PM box but I had stopped at the time to make the Contract system.

I remember our conversation last year in PM. I'm so proud of the shit you've been doing. All the projects you've told me about have come to fruition and plenty more are on the way.

Such amazing news xerotic!. Can't wait for it to be implemented. ?

Onireves - January 10, 2019, 1:12 pm

Didn't see so many triggered guys in one thread for a long time

Xerotic - January 10, 2019, 1:15 pm

Yup. In that conversation I told you it would take about 1-2 years to really add the best changes to HF. We are coming up on one year in a couple months. Imagine what could happen in two.

Kosmos - January 10, 2019, 1:18 pm

Shit we're already coming up on a year?! That went by fast. I can't even begin to imagine what will be added by 2020.

Vitani - January 10, 2019, 1:21 pm

It's probably mentioned in this thread already but I'll post it again just to clear everything up.

Intergrating a live chat system into HF using XMPP is on the TODO list, so eventually you'll get your wish. Patience is a virtue.

Omniscient - January 11, 2019, 6:28 pm

You should take a look at something like this which is XMPP based for site integration.
