3. Completely legal
4. Requires up to \$5-\$15 in investment
5. Make anywhere from \$15 - \$40 GUARANTEED

NOTE : Just to mention it, I'm also selling partnership to my current shop. If you are interested and want to buy in with me we would do a 50/50 split from then on out. You would get access to the ebay account as well to help ship out orders and manage customers feedback ect. - You would have to meet some of the requirements of being simply not a jerk/dumbass and capable of being reliable and consistent. If you are interested in something like this I'm interested in 1 other partner PM me for info

For all others I am also interested in partnering up, You have seen what this method can provide \$ wise. Because of the way this method works it would be ideal with 2 people once you get to the scale I am at. If you are interested in buying in and going 50/50 with me PM me we can discuss specifics!

Lukas - January 10, 2019, 6:55 pm

Received a vouch copy; here is a brief review.

Definitely looks like a profitable method, but there is a possibility for complications. With that being said, at the friendly price of \$50 there's no reason not to buy this.

My Vouch For This Product

The ebook describes easily as to how to do this method. Very legible to read as well, no grammatical errors.

I was probably the only person to buy this with an actual issue. My account was shut down twice, paypal was acting up, and a bunch of other issues. OP helped me get these fixed and made sure I was on my way to make money.

All in all, HUGE vouch for this method. Honestly I was extremely skeptical because it took 3-4 days for the money to start rolling in, but I just got my first two sales in and it's amazing! Don't be discouraged if it takes a little to work.

Awesome! Glad to see you taking advantage and making money! This is a worst case scenario customer and he is now in the profit area just after 3 days!
