Thread: [Botnet VPS Hosts](#)

SheSmokes - January 12, 2019, 8:17 am

Need good suggestions for Net Hosting, routers etc. Thanks

Very good, will check out ty.
I haven't been banned on either yet. Make sure you pick a good country one.

rimane - January 14, 2019, 1:42 am

The country is not really important, it's important if your host don't care about reports, stayhost can host your botnet but if you've got some reports they will reset / delete your host

LameNick - January 14, 2019, 3:36 am

Check my signature for 100% spamhaus/abuse ignored vps.

#Skyline - January 14, 2019, 3:55 am

<https://www.enoctus.com> are good hosting.
