Questions & Answers

Q1) Can I split up my order across several listings?

A1) Yep, just let me know which and how many to send to each.

Q2) What is "Social Proof"?

A2) Social proof is used to make a brand seem more reputable. This can help increase your conversion rate and bring in sales.

Q3) How many rankings will I get from using this service?

A3) This is dependent on many factors. How many Views/Watchers you order and how competitive the product currently is.

If you're offering up any vouch copies I have multiple long-term listings that'd be eligible for these services. I'd appreciate it but if not thank you anyways.

Just want to give a huge vouch for OP, received all my views and some extra, as well. I appear at the top of the search results on eBay, as well as noticed an increase in my sales.
