Thread: [How to Gain access to cars and steal cars](#)

NFH Vituperate - January 13, 2019, 4:55 pm

I do not promote stealing cars and flipping them and taking out the black box of a car switching its VIN so on and so on but I feel its important for others to know this. Modern cars are more computerized than ever. Infotainment and navigation systems, wi-fi, automatic software updates, and other innovations aim to make driving more -convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving -millions vulnerable to attack. This being said you can buy RFID key fob that can mimic the signal a key fob would send a car. An RFID scanner can also mimic cards that can give you access to buildings. As of right now I don't think there is a way to protect yourself from this...considering putting your car in a garage...but then again I'm sure if someone really wanted to, they can use this RFID key fob to open your garage. Check below and add "https://" in front of shop and after hak5 add "org"

shop.hak5./products/keysy

Nechifor - January 25, 2019, 6:52 pm

It's not working for car keyfobs

96sT0R - January 26, 2019, 1:16 pm

I doubt this would work on modern cars as they have protection against replay attacks.

w33rks - January 26, 2019, 4:47 pm

Well this was a waste of my time.....

blaqdu - January 28, 2019, 11:49 am

hahahahaha !!! this is the worst idea i have ever spend a minute reading

Imao waste of 3 minutes

R A B B - January 28, 2019, 7:41 pm

I am more then confident they have really good security to avoid situations like this being so easy Imao..

Ramb0x - January 28, 2019, 8:44 pm

You got on youtube full tutorial.

<https://www.youtube.com/watch?v=Xkxwgrp-cBY>

Here is the programator :)

<https://www.gumtree.co.za/a-car-accessories-styling/retreat/bmw-ak90-key-programmer/1002163858730910000652609>

You gotta check for car model type. This one is for BMW's.
