Thread: [Method to create private entertainment accounts.](#)

Hello everyone,

Selling a method to create private accounts for adult entertainment websites, can PM you the list of websites.

No carding is involved at all.

If you know a good place to sell the private accounts you can make money with this.

The amount you make is dependant on if you know places to sell such accounts, be it your personal shoppy store or anywhere you can think of.

I'm not putting an amount you can make because it only depends on your ability to be able to sell the accounts.

This is not an e-book, it's a method I will explain to you, it is extremely simple, takes one minute to make an account.

Note :

You will need a US VPN.

Price : \$20

Is this the SSN method? If so, it's super illegal and will get you in huge trouble. It's called identity fraud.
