I'm selling 14 [censored] 1-2-year plan accounts.
The accounts have automatic payments.

I might buy later.

Buy you should add cryptos on your payment list

I don't know if I need bitcoin.

Anyways, I added bitcoin.

Poor quality paypal attached to this service, paid and immediately went to pending because the OP has to manually confirm all payments of "\$1."

This is not auto-buy.

Account doesn't work, I imagine its a free generator you're using and then reselling the accounts?
No vouch for my guy here, purchase with caution.
