I was fortunate to receive a vouch copy.

this method has a really good scaling, the longer you work on it the more you are set to earn. the Ebook this user sells goes over how to set everything up and tells you how the technique works in decent detail.

It does not involve:

CPA.

Youtube.

E-Whooring.

Dropshipping.

if you are in need of a solid method that can be scaled I would buy this Ebook.

Not only that but he also replied to this thread about 4 or so times.

I've also noticed how the OP doesnt answer every question people ask which is kinda weird and everyone who got a vouch just said looks like a good method but never say anything about if it will actually earn you anything.
