Thread: [e-Books and methods @ Premium Seller Section](#)

SPECTRE - *January 17, 2019, 9:13 am*

Hey there,

why you guys dont "ban"/"disallow" ebooks and money making methods from the premium seller section?

Only few REAL products selling there, 70% is just "get rich online"

They all should be moved into the eBook bazar.

Spoiler ([Click to View](#))

is anyone else thinking the same?

It's entirely up to whatever user if they want to purchase and eBook, Hackforums don't endorse buying any product, if people make money from that, that's how they make money.

Yea sure, im not saying they should ban it from the FORUM but i just think the PREMIUM seller section is not the best place for all these money methods, for what is the ebook bazar then?

There is a thread in the Rules, Announcements, News and Feedback section also about the eBooks and I'll quote what he said "They get away with it due to saying it's a method" and not an actual eBook.

I have no plans to do this. I won't bother explaining it to you.
