Thread: [\[STATIC CRYPT\] FUD SCANTIME / AMAZING RUNTIME | C | HIGH EXECUTION RATE](#)

French Products - January 18, 2019, 6:28 am

Screenshot:

Terms and condition of using :

When you purchase this software, build, and use its outputs, you must agree with this policy.

I-Sharing:

- a- Build for anyone else than you with the will to sell it or not, breaks the very first rule.
- b - The output sharing must be done very carefully against any file distribution. So the upload of any Static Crypt's outputs is on forbidden on services such: Google Drive, Virustotal, Jotti, Mediafire, etc.
- c - You're not allowed to share this product with someone. All the licenses are for a personal use.

II-Purchase and refund:

- a - All sales are final, a refund is usually not available after purchasing. It is possible only in the case your software isn't compatible with Static Crypt and not aware of it.
- b - The payment platform's policy doesn't apply to Static Crypt. If you encounter any payment problem or anything else which doesn't have anything to do with Static Crypt, you'll must to deal with them.
- c - Partial payments can be completed, you must contact the support to solve this issue.
- d - Charge-backing or using stolen money performs an instant ending of your license.
- e - You MUST open a contract to gain access to the shop URL.

III-Using this software:

- a - None of its output can be used for any malicious activity.
An abuse report WILL end your license, and every required actions against you will be taken.
- b - Scanning output on distributing services such VirusTotal, SpyralScanner, etc, is strictly forbidden.
Every scan is analyzed before taking a sanction.
- c - Reverse engineering is forbidden. Unless you have my authorization, you cannot have this kind of activity on Static Crypt as the builder as its outputs.

IV-Support and issues:

- a - All the support can be done through private message, website. You're not allowed to post on my thread to ask help.
- b - Do not harass support if you didn't receive a response after a few minutes.
- c - I might reserve the right to not providing support to anyone being very annoying, aggressive with

the support. No reason can be provided.

d - Sales trashing is not allowed.

If you're denied of getting support, you have to try gaining abilities, and deal with your problem by yourselves.

V-Personal informations stored:

a - When you purchase this product, VSell saves your IP address, country, e-mail address, and payment transaction id.

These information can be accessed by the seller and platform team only.

b - Stored information by the software: a hardware ID generated (formula generated using your device hardware), account creation date, serial purchased, username, hashed password, and outputs' identifier with the build stamp.

These terms of condition sentences can be changed at any given time.

Purchase (Click on the package you're looking for):

Big vouch for Static Crypt, great coder and great product !
GLWS ?

SIM-4009462 - January 18, 2019, 7:07 am

This service has been up for more than 3-4 years! All i can say, this service is trusted and high quality! Huge vouch from here

JustNothing - January 18, 2019, 7:08 am

Can vouch for Static Crypt too.
Owner knows his stuff.
GLWS buddy.

Kind Regards

Exodus - January 18, 2019, 7:32 am

Vouch for Static Crypt, a great HQ product.
GLWS!

Skye - January 18, 2019, 8:06 am

I know his great work, vouch for him !

GL ?

Blanka - January 18, 2019, 9:56 am

Vouch for French really great product !
GLWS

French Products - January 18, 2019, 4:21 pm

Thanks for your vouchers guys.

Crypter has been refunded:

Transporter007 - January 19, 2019, 3:07 am

Vouch for French Products & Static Crypt.

Good luck on sales. ?

marck16 - January 19, 2019, 7:24 am

I would like to encrypt a miner .exe

exactly this miner

THE VORTEX ~ CPU & GPU SILENT MINER + Dynamic Logic + USB-S + WEB PANEL | EARN \$\$\$

Is this still working?

French Products - January 19, 2019, 7:04 pm

crypter has been refunded:

Mitlar - January 19, 2019, 7:35 pm

I had worked with French for over a year and, I Can definitely vouch for his crypter. He cares for his customers and always strives to deliver a professional product that satisfies your needs. Good Luck with Sales.

Hi,

You've to understand the difference between scantime/runtime.

It will bypass WD without any problem. Others AVs will depend of what you crypt obviously, a crypter can't handle file's runtime detections.

LanMan - January 25, 2019, 10:53 am

Vouch for French. Even tho he doesn't use my shellcode anymore and made his own. Cheap \$\$ crypter for how much time you spent on it. ?

Glass - January 26, 2019, 8:53 pm

Not happy.

Purchased this crypter and got a 9/22 detection and high detections from other antidistribute scanners.

However your built in scanner is saying 1/22 even tho it has been picked up by some of the antivirus you have listed.

<http://prntscr.com/mcpnrt>

Not fud wasted \$30

Exodus - January 27, 2019, 4:09 am

(Jan 26, 2019 09:53 PM)x275 Wrote: [\[CITE\]](#) Not happy.

<http://prntscr.com/mcpnrt>

Not fud wasted \$30

First off those are gen detections and secondly rip your license, you aren't allowed to scan on spyral.

SIM-4009462 - January 27, 2019, 5:27 am

By saying "wasted of 30\$"

Why not search about the problem? Your detection cause of the icon you've added. Second thing is that you use spyralscanner which isn't allowed. So don't come and say you wasted 30\$.

French Products - January 27, 2019, 5:46 am

(Jan 26, 2019 09:53 PM)x275 Wrote: [\[CITE\]](#) Not happy.

<http://prntscr.com/mcpnrt>

Not fud wasted \$30

This is the last time I warning you for scanning on SpyralScanner which distributes samples.

Scanmybin works fine, and those are the same AVs as you can read yourself. Feel free to PM the owner, or scan on antiscan.

About ESET, just compress your main file before crypting it.

DinglBeri - January 27, 2019, 6:55 am

A big sexy vouch, its legit and clean. I recomend it.

SIM-4009462 - January 27, 2019, 12:58 pm

(Jan 27, 2019 07:55 AM)DinglBeri Wrote: [\[CITE\]](#) A big sexy vouch, its legit and clean. I recomend it. Thanks man! <3

DataTron.Network - January 27, 2019, 5:02 pm

This is a really good crypter. I just bought a month license for \$30. I scanned the file without any icon or assembly, with svchost injection, and mutex. 0/22 detection rate. Thanks =)
i.gyazodotcom/bb3c9fae3dbfa6dda90a427f73542026.png

scanmybindotnet/result/f458f619b5c4d6bac2fcc649a651b0bb482be917d5f3d024e049eb43af03e3b0

(Feb 1, 2019 03:24 AM)kendrix Wrote: [\[CITE\]](#) hi does static crypter make LOKI or Diamond FOX FUD?

Yes it does.

EPS Tech - February 3, 2019, 4:08 am

Hello.

You have two stubs. .NET and Autolt stub. But you always send one scan result?

Is the Native side Unicode? Will it work on WarZoneRAT? Can we see the scan result for the native crypting?

Exodus - February 3, 2019, 6:31 am

(Feb 3, 2019 05:08 AM)EPS Tech Wrote: [\[CITE\]](#) Hello.

You have two stubs. .NET and Autolt stub. But you always send one scan result?

We only have one stub written in C.

jameswatt17 - February 3, 2019, 9:44 am

does it work for formbook?

French Products - February 3, 2019, 10:57 am

(Feb 3, 2019 10:44 AM)jameswatt17 Wrote: [\[CITE\]](#) does it work for formbook?
Not sure, PM me with an output, then I will provide a test crypt with no startup.

Last scan :

jameswatt17 - February 4, 2019, 2:55 am

it works for formbook but how long does its stays fud?

French Products - February 4, 2019, 5:54 am

(Feb 4, 2019 03:55 AM)jameswatt17 Wrote: [\[CITE\]](#) it works for formbook but how long does its stays fud?
The stub is daily refud.

bytes - February 4, 2019, 1:27 pm

op check, sent pm, pls reply asap.

jameswatt17 - February 5, 2019, 1:44 am

for my review , i think this is one of the best and cheap, compatible crypter with formbook, the unique thing is that its output is small, unlike others with big output.

goldpill - February 5, 2019, 8:51 am

Is it run time fud or scan time? All the pictures show scan time, not run time.

Carnex64 - February 5, 2019, 12:06 pm

Can you please help me get Runtime fud with #?

bawsyfell - February 5, 2019, 11:39 pm

Looking for live support, check our website out.

(Link at the first page)

French Products - February 11, 2019, 9:13 am

The crypter would be FUD longer, if people could understand that spamming multiple files daily is wrong. For the only one reason, it's later uploaded on VirusTotal, and gives more sample to AVs.

I have always the same people crying to me in DM about a refud, but I see multiple scans the same day from those.

Keep in your mind, I have the FULL rights to ban anyone having more than a single scan daily. If you don't understand what it means or you don't have the will, please get out of my crypter.

travisci - February 13, 2019, 1:14 pm

Is the runtime FUD guaranteed for the crypter? also, does it bypass WD on runtime?

French Products - February 13, 2019, 2:15 pm

(Feb 13, 2019 02:14 PM)travisci Wrote: [\[CITE\]](#) Is the runtime FUD guaranteed for the crypter? also, does it bypass WD on runtime?

Yes, it does bypass WD at runtime..

Also, runtime FUD doesn't exist. But it sure provide a nice result at runtime. It will indeed depends of what you crypt. Crypters cannot cover file's runtime detections.

MarkoPetkovic - February 14, 2019, 6:15 pm

This is a warning, and the last one:

Every single file found on Virustotal having a name like: ORDER.exe, order.pdf.exe, picture.jpg.scr, etc = instantly banned.

Today, on 116 crypted file, I have 17 of them on virustotal. If you don't have a single piece of brain, that ain't my fault.

I will have no mercy with people saying "plz unlock me boss, plz boss"! As I said above, this is the last warning. All ban decisions are starting by tomorrow.

A refud is for tomorrow, I can't complete it now because it's late, and detections are a way too hard to fix. I'm really sorry, you may just thank all these idiots.

Fun fact: they're always the same I see every days. FUD time should be longer than before, starting tomorrow.

Use Orcus instead.

kingslove123 - March 4, 2019, 7:28 am

Hello Exodus i sent PM you,
Please check.

French Products - March 4, 2019, 11:41 am

Update has been completed.

Also, it was due to my junk code. I'm actually using real project source as junk code, and I've moved my loader to a bad place in the project.

Run4me use window detection to say it's detected or not. There was actually no detect on it.

EPS Tech - March 4, 2019, 10:25 pm

StaticCrypter does not work on widnows server, why is that?

Exodus - March 5, 2019, 2:18 am

(Mar 4, 2019 11:25 PM)EPS Tech Wrote: [\[CITE\]](#) StaticCrypter does not work on widnows server, why is that?

Just tested it on windows server 2016 and it worked fine, are you getting any error messages? and what is it you're crypting?

EPS Tech - March 5, 2019, 8:01 am

(Mar 5, 2019 03:18 AM)Exodus Wrote: [\[CITE\]](#) Just tested it on windows server 2016 and it worked fine, are you getting any error messages? and what is it you're crypting?

Yes I am getting an error on server 2012 both in remote desktop and 2012 server on VM. Never had the chance to test on any other server edition.

Here is a screenshot of the error.

<http://prntscr.com/mtm9ab>

Note that I enabled startup on crypter.

French Products - March 5, 2019, 8:07 am

(Mar 5, 2019 09:01 AM)EPS Tech Wrote: [\[CITE\]](#) Yes I am getting an error on server 2012 both in remote desktop and 2012 server on VM. Never had the chance to test on any other server edition. Here is a screenshot of the error.

Please read the terms and conditions, you're refunded in case the software isn't compatible with Static Crypt. Of course, the support must make sure it doesn't work before any refund.

I can confirm it works anyways.

Hi,

Sorry, I have too much PM to read all of them..

You don't have to encrypt again, as I told you months ago, just upload on FTP your crypted file,
then paste the link.

The other thing changed which I didn't mentioned is the binder.

You can use SFX though. Check on YouTube or Google to understand how to do this.

(Mar 17, 2019 05:03 PM)DawDX Wrote: [\[CITE\]](#) Hey bro, do you sometimes test your update after you complete them, before release? tthis is the second time in a roll ur compiling it with a junk code that keep showing once crypted file is executed. Hello, of course I do!

Did you try under Sandboxie? Or maybe virtual machine? I think it doesn't happen on vm, but it's because of my anti emulation, otherwise, it works like a charm without any emulation. I can do something to change that if you tried on a proper environment. ?

(Mar 27, 2019 11:25 PM)EPS Tech Wrote: [\[CITE\]](#) Can you explain to me why crypted files does not execute on windows servers? Anyone with DEP enabled wont work? Please explain thank you.
Because I need to make the shellcode executable.

With DEP enabled on the PE, you must use VirtualProtect With PAGE_EXECUTE. Since it's an import, AVs would sure detect the VirtualProtect call at any time.

EPS Tech - March 28, 2019, 2:44 am

When the crypter starts, there's a BIG messagebox saying that any file such order.pdf.exe found on virustotal will make your license banned. This is what you did!

If you cannot read, that's not my problem. Every users are warned about it. In the ban reason, I mentioned the filename, and the hash that can be searched by yourself on VirusTotal.

If so what are the options to activate on the encrypt?u

His crypter is actually very good with warzone, build warzone without selecting install, start up and all that.

Then on StaticCrypt, select svhost, just select start up and dont bother selecting the rest and crypt, its even 100% fud on runtime doing that.

but if u select install, startup, offlineLog, persistent or anything on warzone before crypt, almost all major AVs will detect it on runtime.

Trick, yeah? ?

cabane2 - April 24, 2019, 1:36 pm

Check your PM boss.I made payment but I didn't receive product...Payment gateway error I guess.Urgent plss

Go on exploit, and get for 40\$ a single crypt fud 2h, 80\$ 12h, stop complaining on my thread about quick detections, since I update it.
If you want a longer fud time, buy somewhere a private stub.

French Products - May 7, 2019, 12:25 pm

As goal to improve fud time, I decided that prices are going up by today.

31 days package is now 50 USD.

3 months, 120USD.

Lifetime, 500USD.

My product deserves this price, and still cheap as hell! Anyone not agreeing on this, please get some .NET cheap crap crypter.

Purch don of 31 day could check and act pls thanks

CypherBite - May 9, 2019, 2:41 pm

3 day purch the static crypte and after some test is work great even i have some detection 2/27 or 3/27 but if you keep changing your setting you should have a clean detection how ever befor you start crypting any server you should know if .net or native and choising the right injection of your payload

Great service and supports thanks for your collaboration and have a good selle keep working even that a lotof options are missing hope see some update

visit0r - May 14, 2019, 8:50 am

Wow we have a great refud today 0/26 even without any icon..

thanks static.

enjoying my product.

French Products - May 18, 2019, 1:49 pm

As some of you may know, I made a great stuff.

The crypter is now "autopilot", I've made a bot able to refud automatically.

It should work for a while, and rarely needs a manual fix. It checks every 2h the current result, then update if there's any detection.

Currently, the update takes between 4-80 minutes -- so, nobody should complain about detection(s), unless they are dumb.

Yes, just look replied far above.

You must crypt with itself -- also, before using WebMonitor, you must be aware that WM might be ran by an idiot about to get raid off, or FBI.

Search on HF for more infos, a thread has been created for it.

aleksekert05 - May 23, 2019, 10:04 am

Is your crypter bypass Windows SmartScreen alert ?

French Products - July 20, 2019, 7:26 am

(Jul 18, 2019 03:15 PM)software01 Wrote: [\[CITE\]](#) Is your crypter bypass Windows SmartScreen alert ?

Please have a closer look to what Smartscreen is.

It asks before executing any UNKNOWN executable.

A crypter's job isn't to make file known (only way for that is digital certificate).

RoubaL - July 25, 2019, 8:51 am

i just your crypter using direct link in your website,

I got the download link and serial on my email,

I have a problem, when i click on the StaticCrypt5.exe Nothing pop up,

i run it as administrator rights but nothing happened,

Note: I have no AV installed, Firewall is disabled, WD is disabled.

Are you idiot? Or just a random sales trasher? Support is there as always!

File does work perfect 2/4, even my test app is .NET2 ?

If you have that messagebox saying you must download the update from the original download link, then you cannot have crypted the last 4 days, since that update has been made over a month ago lol....

th3Mistery - August 25, 2019, 5:59 am

I'm not sale trasher for sure. If I was I would create a whole thread only for your crypter. Crypter is not working for .net 4 for me and second thing also. You could update on the crypter if you removed icon. For exemple I was trying using icons file crash ...etc.

French Products - August 25, 2019, 9:42 am

(Aug 25, 2019 05:59 AM)eyasma Wrote: [\[CITE\]](#) I'm not sale trasher for sure. If I was I would create a whole thread only for your crypter. If you don't put an icon, it crash? What?

You're speaking no sense man.

Crypter works perfectly for .NET 4 or whatever. You don't need an icon to get your file working, since it's only an embedded resource not used for anything...

No private stub on sale, sorry.

buy btc - October 11, 2019, 5:48 am

this works for metasploit/msfvenom exe payloads too?

aerohacker - October 21, 2019, 11:48 pm

It's come with Hidden Startup and Process Persistence feature?

localhost247 - October 23, 2019, 8:44 pm

anyone using this crypter on #?

Dark-Mind - October 24, 2019, 3:08 am

Is the crypter still working?

And can i test on windows server rdp?

i need a crypter to buy immediately.

French Products - October 26, 2019, 5:40 pm

(Oct 21, 2019 11:48 PM)aerohacker Wrote: [\[CITE\]](#) It's come with Hidden Startup and Process Persistence feature?

There's no "hidden startup", and persistence either. My packer isn't a botnet!

(Oct 23, 2019 08:44 PM)localhost247 Wrote: [\[CITE\]](#) anyone using this crypter on #?

Yes, it works like a charm. ?

Sorry man, outputs won't work on RDP, because Windows server enables the DEP by default on every application. But the outputs work perfectly on all the Windows desktop versions.

Cuffed - October 30, 2019, 9:22 am

looks Good I may purchase it tomorrow.

Hello,

Your HWID was unlocked already I guess.

Regarding Trend, is that a detection from the cloud? Or what going on?

I'll have a look into it when I have the time for. ?

mienguyen - October 31, 2019, 11:31 pm

Thank you for your review.

The Masked Pear - November 6, 2019, 8:20 am

Here is a quick review of this shitty product: When the stub is updated your crypted payload stay FUD for hours only, not even a day ! after 2 days, it's completly detected by majors AVs... this not even worth one buck... stay away from that crap, you will lose your money....

French Products - November 6, 2019, 10:57 am

What kind of braindead things are you saying?

Of course after a few hours ESET will pop, it's exactly the same for eveyone. But here's the question: Did you actually buy my product? I guess not.

Wanna know something? I gave you a negative reputation with "No one cares about your opinion." because of your braindead post over DP's thread!

You can't make the difference between a builder and its outputs, so whatever.

You decided to post "no one care about your opinion" with a grammar mistake, which is bad cuz you could at least ctrl + c/ctrl + v...

And finally, you came up on my sale thread, pretending you bought my product, but you're not

contracted....

This is my first and last warning, grow up, buy a brain, and stay away of me before I report you.

Have a nice day.

JustNothing - November 6, 2019, 11:13 am

Unbelievable.

What does he think that his SHARED stub will be 2 days undetected without updating ???

Iain - November 7, 2019, 8:59 am

hi can you do a test crypt for me i will send file in dm

Stanley - November 10, 2019, 7:33 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

anagha1 - November 27, 2019, 6:25 am
can i get more info on this one?

Hisense1 - December 12, 2019, 8:59 am
Hello, please can i use static crypter for # Rat? Need urgent reply please

Dark-Mind - December 12, 2019, 9:30 am
Hello OP, am intrested in your crypter but i have some questions

1. Is it Uni coded (does it work on China PC)
2. How often do you fud stub?
3. Sell private stub, if so how much.
4. Is it compatable with netwire?
5. Is your crypter Native?

Fell free to PM me the ans to my questions, as am ready to buy asap.

Thanks.

GhostRunner - December 12, 2019, 2:39 pm
