1. PRICE: It's a bit expensive but he gave me a reasonable discount, anyways, if you're gonna use this for doxing or any other things you want to do this exploit does the job.
2. EXPLOIT: Not really complicated to use if you are familiar with CLIs, you can even make this as a service if you know how to code.
3. RESULT : This Exploit toolkit really delivers what it promises, tested it on few accounts and it really works!

I guess this is the right place "Premium Tools and Programs"

Skull-13 - January 18, 2019, 9:24 am

You could've just messaged an admin asking them to move your old thread to the right section.

Previous price was \$1,200, reduced to \$1000 , gave the first buyer a discount for \$900

Does this use the API or what? How can i know that you wont run away with the cash? Im really skeptical about this to be honest.

Found a hole on twitter ads services API, run away with the cash? I should have ran away when my first buyer bought this.

Arizonalce - January 18, 2019, 10:13 am

Good shit man, glws!

Wish I had this

Effexion - January 18, 2019, 10:28 am

Looks awesome. Congrats on finding this and best of luck in your sales. Twitter might have paid a load for it but then you run risks.

diesel - January 18, 2019, 11:03 am

Asked him to retrieve an email of an old twitter account of mine, useless dormant account with crappy name and no followers. He told me that the 'vouch' in this thread is proof enough and that he wouldn't be sending proof. Who is going to pay 1000\$ for a proof-less method that his own buddy could have vouched for? Or am i just a mad man?

Look man, I wont risk my account for a ban, and Why would I want to do that? Not really logical for me.

if you don't trust what Im selling then It's okay. Im not pushing you to buy.

Tundery - January 18, 2019, 12:45 pm

vouch copies all done or no?

zFinessed - January 18, 2019, 7:32 pm

very tempting to buy but seems a bit risky for that amount of money

I am personally very skeptical, I was very close to purchasing (Inc Contract) but last min i made an account with new email to make sure it's working and he refused and backed out?

So very close - Don't understand why he wouldn't... He's posted 'Proof' on this thread but I'm legit not sure why he wouldn't do it for me? If it doesn't work on fresh accounts just say lol or work at all..

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Before I buy I would like to confirm this actually work.

Here's a random account:
[@iamtherealtaj](#)

If you manage to get the email or phone I'll cop leave your addy here with a pic I'll send \$1.2k if this actually works.

If not clearly shows this is a scam and that vouch was fake.

Stop uping this thread. It's obviously a scam.

driltip - May 31, 2020, 1:38 am

dammn man, 1000 usd for this and you don't want to just prove to customers by retrieving some info, then if you think potential customers are time waster, then its better I pay a token like 5 or 10usd, to retrieve my twitter info, and if it does not work, I am ok with it paying 5 or 10 usd for it and if it works, then I buy your product.
