Thread: [Looking for long-term BTC Buyer](#)

Lukas - January 20, 2019, 6:35 pm

I have about 5k BTC weekly that I need to get rid of.

Before dealing, I'll be vetting you because I will not be getting scammed during this process. Primarily looking for an ebook seller or somebody on here who has a service that accumulates a fair bit of income, but whatever, money is money.

Exchange rate is negotiable but will get better as we continue to do deals.

You will be going first, I will not be.

Looking for one user. PM me if interested.

This is absolutely not the place to trade big amounts of coins, and the exchange should happen throughout a middleman service

SIM-3092442 - January 20, 2019, 8:17 pm

Yea this is not the place, lots of scammers out there

Hey Lukas, I usually receive around \$100-\$150 that I always need to convert to Bitcoin.

Don't believe me? Look at my recent threads and contracts, there is a huge demand for me to get Bitcoin.

Send me a PM and maybe we can work something out ?

Willing to use a MM mate?

I mean, would rather not. I do around 20k worth of deals with two people every month and it always goes swimmingly. We could use a MM for the first couple of exchanges but after a few I'd like to cut it down to just you, I, and contracts for efficiency.

Are you selling \$5k worth or 5,000 coins weekly?

Omniscient - February 4, 2019, 8:31 am

Why not open a bank account and join an exchange that does FIAT to your account?

StoqnKolev - February 4, 2019, 10:44 am

Can you do 1:1 Exchanges, I pay around 3% for every BTC I buy with cash

Swip3r - February 4, 2019, 11:59 am

I wouldn't buy \$5k, but I'd buy \$2k pretty much every month if you lock me down at a 1:1 preev rate
Could do WU, Zelle, Cashapp up to you

Edit - Could potentially be more depending on market conditions, just lmk if you're interested.

Coinbase?..

Oh, I read what he typed like 5 minute after I woke up lol. Yea I understand what he means now.

I tried doing that with Coinbase Pro and it kept telling me that I needed to wait 3 days before my payment would verify so I can have the BTC. There's no way I can use that window when

exchanging lol.
