Hello all,

Today I would like to share with you a free money method I have found out yesterday. It's a really easy method to do.

The only thing is to collect referrals.

You get up to \$25 bonus upon registration.

http : //kids earn money . co/share/crosterp - without spaces

Make money with referrals, clicks on your referral link or with different tasks inside the website.

My account is relatively new but I have best intention to stay for a long time on this forum and help you guys make money.

I don't know much about this website, still grinding money on it for the first payout.

The only this is that you can not use vpn for it, make mass fake accounts and try to cheat the system beacuse your account could get banned.

Best regards,

crosterp.
