I've paid for "Terror" : <https://hackforums.net/crewcp.php?action=profile&id=10>

But now, reBELLYus is having some problems to invite me to the group.
Why this is happening?

The bytes system is currently disabled. <https://hackforums.net/showthread.php?tid=5932326>

That might be the problem. Give it a few hours.

You are already in a Crew. You can only be in one crew.

Alright Sir, thanks for clarifying, but I see people are in multiple groups. Are Groups and Crew Memberships are different?

Excuse me, but I'm still fairly new and don't know a lot of things.

Yes they are completely separate entities. Groups have private subforums. Crews do not. I do understand your confusion though.

You can view groups here: <https://hackforums.net/showgroups.php>

Crews here: <https://hackforums.net/crewcp.php>

If you paid him.. with a contract, dispute it and request a refund.

He outright scammed you, he can clearly see you are in a crew already... pretty low of him
