Thread: [Bluehost admin credentials](#)

hackb965 - January 22, 2019, 5:20 pm

Hello everyone around plz help me ..i developed a website with someone am the programmer and he is just s partner in cash but after we had a common bluehost account now he changed the password but am still an admin in our website(but not at bluehost) ,...how can i get to enter the databases plz

you could ask him for the password

hackb965 - January 22, 2019, 5:27 pm

he kind of wants to get money from me for the password and its been half a year since we last met...he's trying to get rid of me instead

you're screwed, next time get something in writing so you can sue.

mircel - January 25, 2019, 5:16 am

What kind of website is that ? are you using a cms ?

Nounet - January 25, 2019, 2:20 pm

Is it a CMS website ? Do you use Joomla or Wordpress ? If yes it's easy to hack it!

hackb965 - January 26, 2019, 1:26 am

yea it has wordpress! its just a simple entertainment web

bdkalkun - January 30, 2019, 6:17 pm

just install plugin or directly edit the php files(themes or plugins files) from there you can do anything you want

hackb965 - February 1, 2019, 4:11 am

Yeah i can install a plugin but how would that get me to the password please!

bdkalkun - February 1, 2019, 9:32 am

(Feb 1, 2019 05:11 AM)hackb965 Wrote: [\[CITE\]](#) Yeah i can install a plugin but how would that get me

to the password please!

one of the common method is edit some php file in themes or plugin to get access,then upload database manager like adminer or something like that ..then thats it look id user table...usually it will encrypted..go find online hash cracking website/service or use some tool to crack the password hash
