Thread: [How do I insert image on my post?](#)

MilfMister - January 23, 2019, 6:03 am

Hey,

I need to create post in Secondary Sellers market section, I got my Thread design done, and would love to insert it into my thread.

But wherever I upload that photo and add image via Insert an image option, I get that corrupted link, any help with this without need of being upgraded?

Post the link you're trying to put

Make sure your link end in a .jpg or .png. Also try doing it manually; [img]link here, remove spaces[/img]

That's the link you should use; <https://i.ibb.co/b3km13h/HzjC3mh.jpg>

Awesome! Got it working now ?

Bacardi Cola Lime - January 23, 2019, 6:10 am

Next time, right click on the image you want to post and copy image address.

oRequiem - January 23, 2019, 6:53 am

upload it to imgur and then try.
