Thread: [Would anyone be interested in cheap non-voip numbers for sms verification?](#)

bird - January 23, 2019, 7:30 am

I have access to a large number distributor, which allows me to have access to around 96 countries worth of non-voip numbers for SMS verification (>10,000 numbers available at all times, more available daily).

I was wondering if anyone would be interested, if I were to open a site (with API support) for SMS verifying, probably around \$0.15 USD each verification.

Services like Gmail, Amazon, Twitter, Facebook, any many more could be supported.

I want to gauge interested before I start building a site and API around it.

Jombah - January 24, 2019, 12:55 am

I think the next cheapest is like \$1-5 on this site so it may be a good idea

SIM-4073027 - January 24, 2019, 5:39 am

I definitely would be interested

hikko - October 28, 2019, 2:07 pm

please message me , i have lot of verifications and i would buy

Mr.gamer - October 31, 2019, 4:00 am

Don't wait just start your project.

elterco - October 31, 2019, 8:47 am

I think you can sucess with this. The price of the sms are too expensive. If you could offer 0.1-0.7 you will have plenty of customers

deademotionz - November 4, 2019, 6:04 am

Would be good if you can include numbers from Asian countries

Netrich23 - April 24, 2020, 7:24 pm

Hey! I'm interested in buying the numbers in bulk, do you have a discord?

vozimisko - April 25, 2020, 4:02 pm

I'm also interested, please PM me your discord. Thanks!

cig - April 25, 2020, 4:29 pm

Yea, I voted yes on the poll.

Seasons - April 26, 2020, 8:03 am

I would pay 1-3\$ per good verification number. Hmu if you're doing this i'm very interested.
