Thread: [Would you be intressted in verified league of legends accounts? \(for scripting/troll\)](#)

Raylands - January 25, 2019, 12:07 pm

Hey guys,

I am planning on opening a crack acc shop, but I am still not sure what accounts are missing on HF. As far as I have seen, there isn't an active Lol acc seller on here.

Let me know, requests appriciated.

Raylands

P.s. If anyone knows a good thread designer, pm me.

There are people who would buy if your accounts are inactive and unverified, otherwise it's a bet if you keep the account or no.

Depends if they are unverified or not

I am not planning on botting them, so they are already verified.

They are ment for non-private scripts.

If you get accounts from 2015 and before you may get unverified.
the last game I mean, not account creation at 2015.
