Thread: [\[VBS\] Fake Ransomware by Hackoo](#)

Hackoo - January 26, 2019, 1:08 am

Hi ?

This vbscript can simulate a behaviour of a Ransomware but of course it's a fake virus !
Just for making joke and trapping your friends !
(Think good about backing up your files in an external hard drive; you never know ...) ?

? ?

pms - January 26, 2019, 1:16 am

another great release from Hackoo, great prank right here.

SIM-3364521 - January 26, 2019, 7:54 pm

dont quite get the point of this.
I mean its okay as a prank i guess

Yes it's a scary prank, but i'm sure that a few members here can test it, because it's very scary as prank ! ?

Emre_ - January 27, 2019, 2:04 am

Thanks for the script Hackoo!
I love the way Internet Explorer has no close button.

Thank you man for the testing and for your feed back ?

I think you are the first member here that you have tested this script ?
