Even though a lot of you might already know, there's some people who still doesn't and to this day looks for cracked alts when they could just get away with the mobile version and link it to pc.

This is what I've personally been using for MONTHS and I can guarantee this is a much more reliable way. Guide is written by me.

Write it down below if interested I'll pm you right away.

Ps: I decided not to give this to everyone. Don't think you can come in here and ask for this when your account was registered yesterday and you have like 2 posts. ? will give it to free users if I deem them worthy.
