B FOR BADASS - January 26, 2019, 5:06 pm

Ours is 100% undetectable, we offer very good support which most of the sellers don't (almost no support).

And \$100 for lifetime access is pretty cheap if I say so myself. Let me know if you have any other questions! ?

Always deal with contract guys, especially with this seller minimize the marketplace risk.
Search his username before dealing.

Hello!

Use contract before admins close this, there was a change on marketplace rules, you must use contract for every sale.

Don't take this as an attack, i just wanna help!
